Abstracts

From 2011 to Q3 2015, the stevia sweetener industry has experienced fluctuation. For the upstream, both the price and planting area of stevia leaves declined from 2011 to 2013. For the production of stevia sweeteners, the average annual market price and output were unstable. From 2011 to 2013, both price and output decreased. For the consumption, there's something different from domestic sales and exports. In China, it showed an increasing trend from 2011 to 2014 with a sales volume. In order to find out what is going on in China's stevia sweetener market, CCM has done deep research on China's stevia sweetener industry.

In this report, you can not only obtain supply and demand of different grades of stevia sweetener, but also enjoy insight analysis of influencing factors. Also, deep company research on major stevia sweetener producers in China is unfolded to you here. With high RA stevia sweeteners being paid increasing attention to, more high RA information has been included.

The report will show China's stevia sweetener market from the following aspects,

Capacity and output of stevia sweetener in China, 2011-Q3 2015
