Abstracts

The Executive Summary of Market Research of DDGS in China is from CCM's report Market Research of DDGS in China, which was finished on 17 Sept., 2015.

Distillers dried grains with solubles (DDGS), as a by-product of corn alcohol, its capacity has decreased with the elimination of many inefficient production lines in recent years. Accordingly, its output also decreased since 2012.

This Executive Summary mainly states the production situation, technology, application and price of DDGS. The capacity and output of DDGS had been on the decline in recent years. While affected by raw material and its import price, the domestic ex-works price of DDGS is falling. Besides, it also gives forecast on these aspects in 2015.

The Executive Summary of Market Research of DDGS in China offers you the general market information of DDGS, helping you clearly know the DDGS market and adjust your strategy about DDGS.
