Abstracts

Description:

CCM has finished a market report named Future of Enzyme in China to 2020 in Feb 2010. In order to meet clients' different demands and provide more low-price products, we separated it into many sub-reports with different specific themes. Market Situation of Enzyme in China is one of the sub-reports.

China's starch output has kept growing rapidly with CAGR of about 17.00% since 2001, which reached 17.10 million tonnes in 2008. It is predicted that China's starch output will increase stably to 25.47 million tonnes in 2020. What is the position of Chinese starch industry in the world? Why do Chinese starch industry develop so fast? Which products will witness promising prospect in the future?
