Abstracts

Expanding domestic capacity, but still heavy dependency on import

Although China manufacturers are been making effort to expand their production capacity, they still can't provide enough MEK that China needs. At least, half of MEK needed in China has to be imported.

With so large a gap between the domestic supply and demand, China's MEK market is attracting increasing attention of the global MEK suppliers.

Many application fields and increasing demand

With its good dissolution performance to all kinds of fibrin derivates, synthetic rubber, grease, and high grade fatty acid, MEK is used in many fields in China, including coating, printing ink, adhesive, synthetic leather industry, magnetic tapes, chemical intermediates production, etc.

With the development of industries of automobiles, electronics, furniture, printing, shoes making, garment and so on, the demand for coating, adhesive, printing ink and synthetic leather will increase. So the demand of the MEK will increase accordingly. However, the demand of MEK from solvent dewaxing and magnetic tapes will remain the same or even decrease.

Few researchers

Fushun Institute of Petrochemical Research, Sinopec (FRIPP) is the only researcher in China that has mastered the MEK production technology. Their n-butylene hydration then hydrogenation technology has been transferred to many enterprises. All the domestic MEK producers are adopting their technology.

Developed MEK distribution

The MEK distribution industry is developed in China and the MEK distributors in China are concentrated in Guangdong, Jiangsu and Zhejiang.

China's huge MEK market potential, complicated distribution situation, and future development are worth the attention from players both from China and abroad in this field.

Contents

Executive Summary
Methodology and Sources

I MEK OUTLOOK

I-1 Basic introduction
I-2 Technology
 I-2.1 n-Butylene pathway
 I-2.1.1 One-step method
 I-2.1.2 Two-step method
 I-2.1.2.1 n-Butylene hydrates to make sec-butyl alcohol
 I-2.1.2.1.1 Indirect hydration process with sulfuric acid method
 I-2.1.2.1.2 Direct hydration process with resin method
 I-2.1.2.1.3 Direct hydration process with heteropoly acid method
 I-2.1.2.1.4 Butylene densification technology
 I-2.1.2.2 sec-Butyl alcohol dehydrogenates to make MEK
 I-2.1.2.2.1 Gas-phase dehydrogenation process
 I-2.1.2.2.2 Liquid-phase dehydrogenation process
 I-2.2 Butane liquid-phase oxidation pathway
 I-2.3 Iso-tetraphene pathway
 I-2.4 Butylene liquid-phase oxidation pathway
 I-2.5 Butyraldehyde isomerization pathway
I-3 Raw materials
I-4 History
I-5 Market
I-6 Consumption
 I-6.1 Coating
 I-6.2 Solvent de-waxing
 I-6.3 Adhesives
 I-6.4 Magnetic tape
 I-6.5 Others
I-7 Policy&development advice
I-8 Research
Fushun Institute of Petrochemical Research, Sinopec
I-9 Conclusion
I-10 Forecast

II INTRODUCTION TO MEK PRODUCERS

II-1 Active Producers

II-1.01 Jiangsu Lingguang Group

.....

II-1.06 Xinjiang Dushanzi Tianli High & New Tech Co., Ltd.

II-2 Potential Producers

II-2.01 Henan Puyang Hengrun Petro-chemical Co., Ltd.

.....

II-2.04 Jilin Yanbian Longtie Petrochemical Co., Ltd.

II-3 Stopped producer

II-3.01 Jiangsu Dengdan Group Corporation

II-4 Reagent Producers

II-4.01 Jiangsu Kunshan Huaqiao Chemical Co., Ltd.

II-4.03 Tianjin Tianxin Fine Chemical Development Center

II-5 End Users

LIST OF TABLES

Table II-2.1.2.1-1 Comparison of different processes of n-butylene hydration to make sec-butyl alcohol

Table II-2.1.2.2-1 Comparison of the two processes of the sec-butyl alcohol dehydrogenation

The flowchart of the n-butylene hydration to make sec-butyl alcohol (SBA) and the dehydrogenation of SBA to make MEK.

Comments of end users in lubricating oil industry

Comments of end users in coating industry

Comments of end users in magnetic tape industry

Comments of end users in synthetic leather industry

Comments of end users in printing ink industry

Comments of end users in adhesive industry

COMPANIES MENTIONED

Jiangsu Lingguang Group, Heilongjiang Haerbin Petrochemical Co., Ltd., Heilongjiang Bluestar Petrochemical Daqing branch, Liaoning Fushun Petrochemical No.2 Factory, Shandong Zibo Qixiang Tengda Chemical Company, etc.

I would like to order

Product name: Methylethyl Ketone Market Research (China)

Product link: <https://marketpublishers.com/r/M7609177F3AEN.html>

Price: US\$ 2,700.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/M7609177F3AEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
