Abstracts

Patent of picoxystrobin expired in China in 2008 and new pesticide protection period for picoxystrobin expired in June 2018. In Nov. 2018, according to the desk research, more than 20 companies were reported to be involved in the picoxystrobin market in China. However, very few Chinese enterprises produce picoxystrobin technical. But there is seven enterprises issued environmental impact assessment reports to plan to start production lines of picoxystrobin technical with a potential capacity of more than 2,000 t/a in total. So, China's picoxystrobin market is expected to see bright prospects in the future.
