Abstracts

Objectives of this report are to present an in-depth and comprehensive view of Chinese glufosinate-ammonium market. CCM's goal of this research is to determine the current status of Chinese glufosinate-ammonium industry and reveal the competitiveness of China's glufosinate-ammonium industry.

Boosted by soaring overseas demand and Chinese producers' production technology improvement, China's glufosinate-ammonium production has maintained a spectacular growth in 2015–2020. Attracted by the promising market of glufosinate-ammonium, Chinese producers have kept on expanding their capacities or establishing new facilities.

As of the end of 2020, how much capacity has China's glufosinate-ammonium technical increased? Which players did such a move? How much glufosinate-ammonium have Chinese producers produced? Furthermore, what are the major steps in the production process adopted by Chinese glufosinate-ammonium technical producers? Have they made any technology improvements in recent years? Besides, in the past five years, what's the export situation of China's glufosinate-ammonium technical and formulations? How the export prices of dominant specifications of glufosinate-ammonium technical and formulations have changed in these years?

Moreover, what will be the development trend of the relationship between glufosinate-ammonium market's supply and demand in China in the future?

In this report, you will find answers to the questions mentioned above. And the report mainly focuses on the information below.

Production and producers of both glufosinate-ammonium technical and formulations in China, 2015–2020

Production technology of glufosinate-ammonium technical

Export of glufosinate-ammonium technical and formulations in China (including volume, destination and price), 2015–April 2020

Consumption of glufosinate-ammonium in China, 2015–2020

Contents

Executive summary

Introduction and methodology

1 PRODUCTION

1.1 Production of glufosinate-ammonium technical in China, 2015–2020

1.2 Production of glufosinate-ammonium formulations in China, 2015–2020

2 PRODUCER

2.1 Producers of glufosinate-ammonium technical in China, 2015–2020

2.2 Producers of glufosinate-ammonium formulations in China, 2015–2020

3 PRODUCTION TECHNOLOGY

4 EXPORT

4.1 Export of glufosinate-ammonium technical in China, 2015–April 2020

4.2 Export of glufosinate-ammonium formulations in China, 2015–April 2020

5 PRICE

6 DOMESTIC CONSUMPTION

7 CONCLUSIONS

List Of Tables

LIST OF TABLES
