Abstracts

This executive summary is extracted from CCM's report Production and Market of Glycine in China finished in Jan. 2016.

All four grades of glycine are produced in China, with tech-grade glycine taking the dominant role.

The fast development of glyphosate industry in China has made glycine industry witnessing a fast development in China especially tech-grade glycine correspondingly, though the domestic glycine production technology is relatively lagging behind.

Aiming to figure out the production and market situation of glycine in China, CCM carries out this research. In this executive summary, readers can obtain the information as follow:

Overview of glycine supply and suppliers in China;

Introduction of glycine production technology in China;

Consumption structure of glycine in China;

Development trend of glycine in China.
