Abstracts

The Executive Summary of Production and Market of Picoxystrobin in China is from CCM's report Production and Market of Picoxystrobin in China, which was finished in April, 2015.

At present, only DuPont has registered the production of picoxystrobin technical in China, while the capacity and output of picoxystrobin in China have been increasing with the expiration of picoxystrobin's patent in 2008.

As for the consumption of picoxystrobin in China, it is mainly used to avoid and cure diseases of vegetables and fruits, and the popular picoxystrobin formulation is 22.5% SC.

It's forecasted that both the output and demand of picoxystrobin will continue to increase at a modest rise in the next five years.

The Executive Summary of Production and Market of Picoxystrobin in China briefs you the production and market of Picoxystrobin in China, showing you the potential of China's picoxystrobin industry.
