Abstracts

China is an important L-Cysteine producer in the world. The impact of the 2008 global economic crisis has struck the industry's development since the products are export-oriented. Fortunately, since 2010, the industry has been recovering; some producers progressively expand their production scale. To learn about the latest information about production, this report can be your helpful reference.

This report keeps you informed of the latest information about producers. Over 20 players led by Shine Star (Hubei) Biological Engineering Co., Ltd. are active in China, totally outputting 5,360 tonnes of L-Cysteine products in 2010. Of this output, about 1,800 tonnes are used in different downstream industries. Foods, pharmaceuticals and cosmetics are the top three consumption fields in China.

Additionally, electroreduction method remains the mainstream technology of making L-Cysteine products in China. But it brings high production cost to producers by increasing their investment in waste treatment. Amidst the backdrop of increasing attention paid to environmental protection and more relevant policies being promulgated, what will be the way out and the future trend of the production technology?

Besides the aspects mentioned above, you can find out other changes in China's L-Cysteine industry happened in 2006-2010 and its development trend in China.

This report combines CCM International's expertise in L-Cysteine products market research. Highlights of this report are as follows:

Introduction of production

Raw material situation

Production cost

Technology

Consumption pattern

Price forecast of L-Cysteine products and raw materials by different scenarios

Contents

Executive summary
Methodology and definition

1 BRIEF INTRODUCTION TO L-CYSTEINE

- 1.1 Composition, information on ingredients
- 1.2 Hazard identification
- 1.3 Handling and storage
- 1.4 Toxicological & ecological information
- 1.5 Transport information

2 OVERALL SUPPLY & DEMAND SITUATION OF L-CYSTEINE IN CHINA

3 L-CYSTEINE PRODUCTION SITUATION IN CHINA

- 3.1 Production (by product types) 2006-2010
 - 3.2.1 Current top three manufacturers
 - 3.1.2 Sales value and volume
 - 3.1.3 Analysis on production change
 - 3.1.4 Feedstock market condition in China
 - 3.1.4.1 Feedstock supply situation, 2008-2010
 - 3.1.4.2 Feedstock price situation, 2008-2010
 - 3.1.4.3 Forecast on feedstock price, 2012-2015
 - 3.1.4.3.1 Drivers
 - 3.1.4.3.2 Barriers
 - 3.1.4.3.3 Feedstock price trend, 2012-2015

4 MARKET SITUATION OF L-CYSTEINE IN CHINA

- 4.1 L-Cysteine market price situation
 - 4.1.1 L-Cysteine market price trend, 2006-2011
 - 4.1.2 Forecast on L-Cysteine price, 2012-2015
 - 4.1.2.1 Drivers
 - 4.1.2.2 Barriers
 - 4.1.2.3 L-Cysteine price trend, 2012-2015
- 4.2 Major applications in China
 - 4.2.1 Consumption pattern of L-Cysteine, 2010

4.2.2 Brief introduction of major consumption fields, 2010

5 TECHNOLOGY INTRODUCTION

5.1 Existing technologies and patents in China (2006-2010)

5.1.1 L-Cystine production technology

5.1.2 L-Cysteine base and L-Cysteine hydrochloride production technology

5.1.3 L-Cysteine derivatives production technology

5.1.4 Relevant patents in China

5.2 Emerging technologies

6 PRODUCTION COST AND PROFITABILITY OF L-CYSTEINE IN CHINA

6.1 Production cost and profitability of L-Cysteine hydrochloride monohydrate

6.1.1 Shine Star (Hubei) Biological Engineering Co., Ltd.

6.1.1.1 Estimation on production cost of L-Cysteine hydrochloride monohydrate

6.1.1.2 Estimation on manufacturing cost

6.1.1.3 Estimation on management cost

6.1.1.4 Estimation on profit

6.1.2 Wuhan Grand Hoyo Co., Ltd.

6.1.2.1 Estimation on production cost of L-Cysteine hydrochloride monohydrate

6.1.2.2 Estimation on manufacturing cost

6.1.2.3 Estimation on management cost

6.1.2.4 Estimation on profit

6.1.3 Ningbo Zhenhai Haide Biochem Co., Ltd.

6.1.3.1 Estimation on production cost of L-Cysteine hydrochloride monohydrate

6.1.3.2 Estimation on manufacturing cost

6.1.3.3 Estimation on management cost

6.1.3.4 Estimation on profit

6.2 Production cost and profitability of L-Cysteine hydrochloride anhydrous

6.2.1. Wuhan Grand Hoyo Co., Ltd

6.2.1.1 Estimation on production cost of L-Cysteine hydrochloride anhydrous

6.2.1.2 Estimation on manufacturing cost

6.2.1.3 Estimation on management cost

6.2.1.4 Estimation on profit

6.2.2 Ningbo Zhenhai Haide Biochem Co., Ltd.

6.2.2.1 Estimation on production cost of L-Cysteine hydrochloride anhydrous

6.2.2.2 Estimation on manufacturing cost

6.2.2.3 Estimation on management cost

6.2.2.4 Estimation on profit

6.2.3 Ningbo Haishuo Biotechnology Co., Ltd.

6.2.3.1 Estimation on production cost of L-Cysteine hydrochloride anhydrous

6.2.3.2 Estimation on manufacturing cost

6.2.3.3 Estimation on management cost

6.2.3.4 Estimation on profit

6.3 Production cost and profitability of L-Cysteine base

6.3.1 Wuhan Grand Hoyo Co., Ltd.

6.3.1.1 Estimation on production cost of L-Cysteine base

6.3.1.2 Estimation on manufacturing cost

6.3.1.3 Estimation on management cost

6.3.1.4 Estimation on profit

6.3.2 Ningbo Zhenhai Haide Biochem Co., Ltd.

6.3.2.1 Estimation on production cost of L-Cysteine base

6.3.2.2 Estimation on manufacturing cost

6.3.2.3 Estimation on management cost

6.3.2.4 Estimation on profit

6.3.3 Ningbo Haishuo Biotechnology Co., Ltd.

6.3.3.1 Estimation on production cost of L-Cysteine base

6.3.3.2 Estimation on manufacturing cost

6.3.3.3 Estimation on management cost

6.3.3.4 Estimation on profit

7 PROFILES OF KEY MANUFACTURERS

7.1 Shine Star (Hubei) Biological Engineering Co., Ltd.

...

7.6 Xinyi Hanling Biological Engineering Co., Ltd.
