Abstracts

Description:

CCM has finished a market report named Future of Modified Starch in Asia Pacific in Dec. 2010. In order to meet clients' different demands and provide more low-price products, we separated it into many sub-reports with different specific themes. Production and Consumption of Modified Starch in China is one of the sub-reports.

Modified Starch is widely applied in food, papermaking, textile, medicine and oil exploration, etc. And after rapid development in the past few years, China has been the second largest modified starch supplier and consumption market around the world, with huge influence on global modified starch market, next to the U.S.

CCM accumulated previous researching experience in modified starch and utilized its geographic superiority by using plenty of historic and the latest first hand statistic data, to penetrate the whole Chinese modified starch's production and consumption intelligence. In this sub-report, we make a deep analysis by the following aspects:

History footprint and related production data of modified starch industry in China

Production situation and sales value for more than 30 major modified food starch producers in recent two years (by categories such as modified food starch and modified paper starch and etc.)

Market share of consumption volume of major modified starch by application in China

In addition, with wide planting area and high yield of raw material such as corn, tapioca and potato, Chinese modified starch producers can adopt various choices in purchasing raw material. Chinese modified starch producers in different regions would adopt different purchasing strategies. Which raw material adopted for major modified starch producers in China? What are the reasons for this phenomenon? You can get the answers from this sub-report.

You may also get the company profile of each key producer in China, with the information bellow,

1. Contact information (location, telephone number, fax, website, etc.)
2. Feedstock supply
3. Production of modified starch (capacity, output, manufacturing technology, price, etc.)
4. Manufacturing cost of modified starch

Although this sub-report focuses on China, we added a big chapter of Modified Starch AP report-raw material in AP to ensure the entire intelligence of its value chain, from the upstream to downstream, you may have a comprehensive view about it .

Contents

1 CHINA

- 1.1 Brief introduction to modified starch industry
- 1.2 Production situation
- 1.3 Demand and end-use segments

COMPANIES MENTIONED

Zhucheng Xingmao Corn Developing Co., Ltd., Guangxi Mingyang Bio-chem Technology Co., Ltd., Suzhou Gaofeng Fine Chemical Co., Ltd., Changchun Dacheng Industrial Group Co., Ltd., Hangzhou Puluoxing Starch Co., Ltd., Roquette Starch (Lianyungang) Co., Ltd.

I would like to order

Product name: Production and Consumption of Modified Starch in China
