Abstracts

Manganese acetate industry has developed rapidly in the past few years driven by the expansion of PTA industry. But affected by the global economic crisis, China's manganese acetate industry will face recession with the decreasing demand. To figure out the current situation and prospect of manganese acetate, CCM has penetrated into the manganese acetate industry covering production, producers, consumption and foreign trade, etc.

Declining operate rate

Most producers do not take manganese acetate as the main product or profit source due to its low profit margin. Facing the uncertain domestic market, many producers decrease the operate rate and shift to produce other acetates or other products. What's actual production situation of Chinese producers?

Trend in PTA industry

The largest consumption field of manganese acetate is PTA industry in China. As increasing PTA producers tend to use liquid manganese acetate, some producers have stopped production of crystal and shifted to liquid product which is difficult to transport. What's actual situation of liquid manganese acetate and what's the solution for transportation? Which will dominate the PTA industry, crystal or liquid manganese acetate?

This study discloses the status quo in Chinese manganese acetate industry from aspects of industry development, supply and demand, producers, price, raw material, market demand as well as end use industries, and summarizes the competitive landscape and commercial opportunities, etc.

Contents

Executive summary

Methodology

I MANGANESE ACETATE INDUSTRY IN CHINA

I-1 Manganese acetate production situation in China

I-1.1 Brief introduction to manganese acetate production

I-1.2 Summary of Chinese manganese acetate producers

I-1.3 Brief introduction to production technology

I-2 Raw material supply situation

II TRADE OF MANGANESE ACETATE

II-1 Import and export of manganese acetate in China

II-2 Price of manganese acetate and the influencing factors

III MARKET SITUATION OF MANGANESE ACETATE IN CHINA

III-1 Consumption of manganese acetate

III-2 Introduction to major application areas

III-2.1 PTA industry

III-2.2 TMA industry

III-2.3 Acetic acid

III-2.4 Others

IV FUTURE PROSPECT OF MANGANESE ACETATE INDUSTRY

V CONCLUSION AND RECOMMENDATION

VI APPENDIX: PROFILES OF MAJOR MANUFACTURERS

VI-1 Liaoning Liaoyang Hongwei Synthetic Catalyst Plant

.....

VI-14 Liaoning Shenyang Huachang Antimony Chemical Co., Ltd.
