## Abstracts

Key findings (Word) + Trade analysis (Excel)

Propiconazole is a systemic triazole fungicide with excellent control effect against wheat take-all, elongation disease, sigatoka, etc. Most propiconazole technical produced in China is exported to the overseas, and the remaining is made into formulation and sold in domestic market. Wheat, rice and banana are the major crops consuming propiconazole formulation.

This report provides basic understanding to Chinese propiconazole industry in terms of production, producers, raw materials, price and export.

In this report, you can find answers to the following questions:

- Who are the major active producers in China?
- How about capacity distribution in China?
- How is the output in 2008?
- How is the price changing in recent years?
- What is the export volume in 2008?
- What is the export structure in 2008?
