Abstracts

Seed China News provides you with real-time intelligence on China's seeds market.

It is a monthly published newsletter, which can be downloaded in PDF format. The subscription period is yearly, grants the subscriber 12 issues in total.

China's seed industry is changing rapidly as the government struggles to create an industry ready to compete with the seed giants of the US and Europe. Accelerating M&A, increasing investment in R&D, strengthening new variety rights and the possible relaxation of restrictions on GMO are all trends that could transform the industry.

Seed China News will help you stay ahead of the game in this fast-changing market with real-time reporting on everything affecting China's seed market, from new research to fluctuations in the grain markets. This includes:

Breaking news from China and abroad

The latest market data, including price information, import/export data, production, consumption, operating rates, etc.

In-depth analysis of market trends, Chinese government policy, the performance of leading Chinese producers, M&A, new technologies, and more

Expert commentary from industry insiders, including regular guest articles and interviews with insiders at leading Chinese manufacturers, associations and government organizations

HEADLINE

Seed China News 202009 (12 issues per year)

In the morning of 11 Oct., an unmanned operation demonstration was carried out at the pilot demonstration site of Jiangsanjiang Unmanned Farm, the world's first unmanned farm of over 10,000 mu jointly built by Country Garden and Beidahuang. In the demonstration, more than 40 most-advanced agricultural implements and machineries in the world were used in the whole process including farming, planting, managing, harvesting and transporting of rice, corn and soybean. This demonstration not only indicates that important progress has been made in the pilot demonstration project of unmanned farm jointly built by Country Garden and Beidahuang, but makes solid foundation for exploring systematic solution for whole-process unmanned operation for the next step.

On 13 Oct., a team of experts made an on-site inspection at the 'double innovation' base of smart tobacco agriculture which covers more than 5,000 mu (333 ha) of flue-cured tobacco and corn rotation areas in Mile City, Honghe Prefecture, Yunnan Province. After inquiry and full discussion, experts agreed that great achievements have been made in the special project 'Cultivation of New Corn Varieties with Stress Resistance, High Yield and Barren Resistance in Southwest and South China' of National Key Research and Development Program 'Breeding of 7 Crops', and the corn variety Chuandan 99 has passed indicator evaluation of major new varieties in this project.

From 19 to 20 Oct., the 28th Beijing Seed Industry Conference and the first Corn Industry Chain Conference of China was held in Beijing. More than 100 representatives of corn seed companies, industry leaders and breeding experts from all over the country gathered to discuss the development plan of corn seed industry. An activity 'Honorary Hall' for corn variety recommendation was held on the Conference. After expert evaluation, 20 corn varieties were selected from more than 16,000 corn varieties in the country to be awarded the title of 'Honorary Hall', establishing the benchmark for innovation and development in corn seed industry.

On 12 Oct., 2020, the Department of Crop Production, Ministry of Agriculture of the People's Republic of China publicized the main crop varieties approved by Sichuan Province on 30 Sept., 2020, and the publicity period is from 12 Oct., 2020 to 30 Oct., 2020. 125 corn varieties, 63 rice varieties, 8 soybean varieties and 6 cotton varieties are included in the list.

On 12 Oct., 2020, the Department of Crop Production, Ministry of Agriculture of the People's Republic of China publicized the list second batch of main crop varieties

approved by Shandong Province on 27 Sept., 2020, and the publicity period is from 12 Oct., 2020 to 30 Oct., 2020. 37 wheat varieties and 4 rice varieties are included.

According to China Customs, dual MoM increases were seen in import and export of vegetable seed in Sept., 2020. China exported 321,196 kg of vegetable seed in the month, with the value of USD5,987,638, up by 51.35% and 19.60% MoM, respectively. A total of 7,269,831 kg of vegetable seed were imported to China in Sept. 2020, with the value of USD17,376,317, up by 33.42% MoM.

According to China Customs, China's import and export of corn seed in Sept., 2020 both went up MoM. Specifically, China imported 1,130 kg of corn seed in Sept., 2020, with the value of USD6,259, up significantly by 756.06% and 150.76% MoM. China exported 33,480 kg of corn seed in Sept., 2020, with the value of USD82,489, went up by 128.92% and 182.01% MoM.
