Abstracts

Description:CCM had finished a market report named Study on Lignin and Lignin-based Products in China in Jan,2011. In order to meet clients' various demands and provide more low-price products, we separated it into many sub-reports with different specific themes. Study on Lignin-based Products in China is one of the sub-reports.

In this sub-report, CCM analyzes lignin-based products in terms of raw materials, technology development, application situation and market dynamic, etc. Clients can capture general production, application and R&D progress of lignin-based products in China, finding out the potential business opportunities for the players who hope to benefit from lignin-based products.

Contents
