Abstracts

Succinic acid is a kind of basic chemical that is well-accepted in China and many other countries and regions across the world. Currently, the supply volume of succinic acid in China is sufficient and about 15% of succinic acid is exported every year. Though the succinic acid has been applied in many fields, the consumption volume in each field is small and the growth rate of the demand for succinic acid in these fields is relatively low.

In fact, succinic acid has a wider application range than before. For example, it can be applied as raw materials of several chemicals, including 1, 4-butanediol (BDO), alkyd resin, PBS, etc. However, due to the high price of succinic acid made from oil-based raw material, the application of succinic acid in these products has always been restricted. The report outlines the current situation of succinic acid market, including information related to production, producers, raw material, consumption, etc.

When it comes to PBS, it has been a hotspot since 2008 and has been regarded as the most important growth point in the succinic acid market. In this report, CCM will disclose PBS's actual situation, which may be different from what you have already known. Moreover, CCM will predict PBS's future market and show you its impacts on the succinic acid market.

Regarding the production technology of succinic acid, biological fermentation method has attracted much attention from the industry players for a long time. After years of development, the biological fermentation technology has become more mature. In the report, CCM will elaborate the real application situation of this technology.

In the report, all the information is unfolded with the following highlights:

Production situation of succinic acid in China, 2008-2013

Overview of pricing and quotation of succinic acid, 2008-2013

Raw material of succinic acid

Import & Export analysis, 2008-2012

Consumption situation of succinic acid

Introduction to the production technology of succinic acid

Forecast about supply and demand, 2013-2018

Profiles of succinic acid producers in China

Contents

Executive summary
Introduction and methodology

I DEVELOPMENT HISTORY IN CHINA

II THE INDUSTRY NOWADAYS IN CHINA

II-1 Current production situation
- Summary of manufacturers
- Summary of production
II-2 Raw material supply situation
II-3 Competitiveness landscape
II-4 Import and export analysis in 2005~2007

III PRICE AND ITS INFLUENCING FACTORS

III-1 Historic pricing and current pricing
III-2 Factors resulting in pricing changes

IV CONSUMPTION PATTERN

IV-1 Analysis of applications
IV-2 Brief introduction to major end use segments
 IV-2.1 Intermediate for N-halogen succinimide
 IV-2.2 Other application fields in China
 IV-2.3 Findings
IV-3 List of major end users in each major end use segment

V BRIEF INTRODUCTION TO PRODUCTION TECHNOLOGY

V-1 Different Pathways/Methods in China

VI FUTURE FORECAST

VI-1 Key factors and driving forces
VI-2 Quantities forecasts of market in the next 5 years

VII CONCLUSION

VIII APPENDIX: PROFILES OF MANUFACTURERS

VIII-1.01 Zhejiang Deqing Yinyuan Chemical Industry Co., Ltd.

VIII-1.02 Jiangsu Nanjing Shenning Chemical Co., Ltd.

.....

VIII-3.01 Shaanxi Weinan Huifeng Chemical Industry Co., Ltd.
