Abstracts

The Executive Summary of Survey of Rice Insecticides in China is from CCM's report Survey of Rice Insecticides in China, which is finished on 17 Nov., 2015.

China, as one of the world's major rice planting countries, its consumption of rice insecticides took up about 10% of the total pesticide consumption in 2014, or about 20% of the total insecticide consumption in China in terms of tonnage.

This executive summary mainly states the registration, supply, demand, price and others of major rice insecticides in China, including abamectin, chlorpyrifos, imidacloprid, dichlorvos, acephate, triazophos, pymetrozine and buprofezin. And it also gives forecast to their prices in the next five years (2015-2019).

The Executive Summary of Survey of Rice Insecticides in China briefs you the supply and demand situation of rice insecticides in China, helping you clearly know the relevant information and adjust your strategy.
