Abstracts

Along with the development of liquid crystal display, all the LCD materials including LCD monomer and chemicals for LCD monomer production had witnessed a great expansion in the past decade. China is the most important country of LCD monomer, which makes it the largest market for upstream chemicals including CDO and CDO ketal. How large is the market size of CDO and CDO ketal in China? Attributed to its mature chemical environment and lower production cost, China is also the most important production country of many fine chemicals including CDO and CDO ketal. What is the current production situation of these two chemicals in China? Despite LCD's universalness, the great dependence of CDO and CDO ketal on liquid crystal monomer and multiple substituents are threats for CDO and CDO ketal. What's worse, the limited overseas demand for the two chemicals is not helpful to solve the threats well. What is the consumption structure of CDO and CDO ketal in China? What is the export situation of CDO and CDO ketal? What are the factors influencing prices of CDO and CDO ketal and how do they act? What is the current prices of these two chemicals? In order to provide a completed picture for CDO and CDO ketal market in China, this report has described the overall production, raw materials and technology, price, consumption, and export of CDO and CDO ketal. Besides, the active manufacturers and some end users are also listed.

In this report, you can easily find out the answers to the following questions:

What's the current production status of CDO and CDO ketal in China

Who may be your potential competitors?

What's the current raw materials and technology of CDO and CDO ketal in China?

What's the current export status of CDO and CDO ketal as of 2010 and 1Q 2011 in China?

Which producers export its CDO or CDO ketal at what price?

What's the current consumption status of CDO and CDO ketal in China?

Contents

I OVERVIEW OF 2,4-D IN CHINA

- I-1 Brief introduction of 2,4-D series herbicides
- I-2 overview of 2,4-D industry in China

II PRODUCTION SITUATION OF 2,4-D IN CHINA

- II-1 Production technology
 - R&D development and current level
 - Synthesis technology of 2,4-D
 - new discharge standard to 2,4-D industry
- II-2 2,4-D technical Production situation
- II-3 Raw materials supply situation of 2,4-D

III PRICING

- III-1 - Factors influencing 2,4-D price
- III-2 - Historic price and price prediction

LIST OF TABLES

Table II-1.1 The standard targeting all the existing active enterprises and to be implemented from Jan.1st, 2009 to Jun. 20, 2011

Table II-1.2 The standard targeting all the existing active enterprises and to be implemented from Jul. 1st, 2011 and new enterprises implemented from Jan.1st, 2009

Table II-1.3 Special discharge standard targeting all the existing enterprises and new enterprises in special areas implemented from Jan.1st, 2009

Table II-2-1 2,4-D producers summary in China, 2008 and 2009

Table II-2-2 Situation of 2,4-D producers in 2008 and 2009

Table II-2-3 Capacity and output of 2,4-D in 2006~2009

Table II-3.1 Major chloroacetic acid producers in China in 2009 (Capacity: t/a)

Table II-3-2 Major phenol producers in China in 2009 (Capacity: t/a)

Table III-1.1 Unit consumption of raw materials for 2,4-D production

LIST OF FIGURES

Figure I-1 Geographic distribution of 2,4-D technical producers in China as of May 2009

Figure I-2 Relationship among 2,4-D series herbicides

Figure III-2.1 Average price of 2,4-D technical in China, 2007~2009

COMPANIES MENTIONED

Changzhou Wintafone Chemical Co., Ltd.; Shangdong Weifang Rainbow Chemical Co., Ltd.; Ningxia Sanxi Chemical Co., Ltd.; Jiaxing Jiuyisheng Chemical Co., Ltd.; Jiamusi Heilong Agricultural And Industrial Chemical Ltd.

I would like to order

Product name: The Survey of 2,4-D in China

Product link: <https://marketpublishers.com/r/S88A327313AEN.html>

Price: US\$ 2,234.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
