Survey of glycine in China is the fourth edition report on China's Glycine industry finished by CCM. Presenting an in-depth analysis of China's current glycine market and future trends, this report attaches importance to the following parts:

- Supply summary of glycine (capacity, output and key manufacturers) and demand summary by volume & grade in China during 2008-2012
- Production technology and production cost of glycine
- Export situation of glycine during 2007-Oct.2012
- Price of glycine during 2007-2012
- Brief introduction to major end-use segments of glycine
- Industry concentration of glycine materials

Report structure is similar to the third edition, but all the data related to glycine industry have been updated with higher data accuracy.

### What are the aims of this report?
