Abstracts

Driven by the demand from the downstream products especially paracetamol, para-aminophenol (PAP) of China keeps developing in recent years. As the main PAP producer in the world, the output of PAP in China already comes to about 110,000 tonnes in 2010.

China and India, two largest API producers in the world, supply 80% of the global paracetamol market in 2010, leading Asia to be the largest origin of paracetamol. Meanwhile, the huge population makes it the largest consumption market of the world. Asia consumes 65,400 tonnes of paracetamol—half of the global output of 2010, though part of that is exported in the form of formulation. As the economy develops, Asia market will be more important.

We study the six most populous countries of AP including China, India, Indonesia, Bangladesh, Pakistan and Japan. Based on the potential of the current market, the panorama of Asia paracetamol can be drawn out.

In this report, What are the latest production situation in AP and the consumption details of PAP and paracetamol? What is the market change of PAP and paracetamol in 2006-2010? How is the future development of PAP and paracetamol in 2011-2015? All these aspects can be found in this report. In addition, relevant policies and regulations are also covered in this report. This report combines CCM International's expertise in PAP and paracetamol market research.

Key sections of this report:

PAP production situation in China, 2008-2010

Import and export situation of PAP in China, 2000-2010

Detailed description on consumption patterns and various application fields, 2010

Forecast on PAP supply and demand of in China, 2011-2015

The paracetamol production details in AP, 2008-2010

Import and export situation of paracetamol in AP, 2006-2010

Paracetamol consumption pattern in AP, 2009-2010

Forecast on paracetamol supply and demand of in China, 2011-2015

Clients could reap benefits as followed:

The details of the production, IE and consumption of Chinese PAP

The influence of Chinese PAP on paracetamol in AP

The production, IE and consumption situation of targeted AP countries

The strengths and weaknesses of different regional producers in AP

The investment environment of paracetamol in AP

The challenge and opportunity in the AP paracetamol market

Contents

Executive summary
Introduction and methodology

1 CONSUMPTION OF POLYCARBONATE

1.1 Summary of polycarbonate consumption in China, 2006-2010
1.2 Development situation of major polycarbonate downstream industries
1.3 Consumption pattern of polycarbonate, 2010
1.4 List of major end users

2 SUPPLY SITUATION OF POLYCARBONATE

2.1 Summary of polycarbonate supply in China
2.2 Polycarbonate import analysis, 2010
2.3 Polycarbonate production in China, 2006-2010
2.4 Foreign investments in China
2.5 Development of domestic producers
2.6 Production technology improvements
2.7 Raw material supply situation
2.8 Production expansion of polycarbonate

3 PRICE CHANGE OF POLYCARBONATE

3.1 Key factors influencing polycarbonate price
3.2 Price change, 2009-Aug. 2011

4 PROSPECTS FOR CHINA'S POLYCARBONATE MARKET

4.1 Key factors
4.2 Overall forecast on production and consumption to 2016
4.3 Trend of polycarbonate market structure
4.4 Price trend of polycarbonate, 2012-2016
4.5 Forecast of raw materials supply to 2016

5 CONCLUSION AND OPPORTUNITY

6 PROFILES OF MAJOR PRODUCERS

- 6.1 Bayer Polymer (Shanghai) Co., Ltd.
- 6.2 Teijin Polycarbonate China Ltd.
- 6.3 Chongqing Changfeng Chemical Industry Co., Ltd.
- 6.4 Sichuan Mianyang Chenguang Fada Industrial Co., Ltd.
- 6.5 SINOPEC/SABIC Tianjin Petrochemical Co., Ltd.
- 6.6 Sinopec Mitsubishi Chemical Polycarbonate (Beijing) Co., Ltd.
- 6.7 LING YOU Engineering-Plastics (Shanghai) Co., Ltd.
