## Abstracts

China has been producing succinic anhydride for several years, but the market is not very flourishing before 2009. In order to provide a completed picture for SAN industry in China, this report has described the overall production, raw materials and technology, price, consumption, export of succinic anhydride, and environmental protection. Besides, the active manufacturers and some end users are also listed.

In this report, you can easily find out:

What's the current production status of succinic anhydride in China?

Who may be your potential competitors?

What's the current raw materials and technology of succinic anhydride in China?

What's the current export status of succinic anhydride as of 2009 and 1Q 2010 in China?

Which countries consume succinic anhydride?

What's the current consumption status of succinic anhydride in China?

## Contents

Code Content

### **I PRODUCTION**

- Overview
- Capacity expansion, output, distribution
- Concentration in west and central regions
- Sulphate process vs. chloride process
- Feedstock situation
- Price

### **II BENCHMARKING**

- Overview of manufacturers
- Reasons for choosing these manufacturers
- Jinzhou Titanium
  - Strength and weakness
    - Production
    - Distribution network
    - Waste treatment
    - Feedstock supply
    - Technology innovation
    - Research investment
    - Cost structure
- Panyu Titanium
- Jinan Yuxing
- Shanghai Jianghu
  - Reason for presenting this company
  - Strength
  - Production
  - Distribution
  - Product standard
  - Waste treatment cost
  - How to decrease cost by coating

### **III HIGHLIGHTED CASE**

- 1 Amortisation
- 2 DuPont's entry(2005-now)
- 3 No joint venture of chloride process
- 4 Policy

#### **IV I/E ANALYSIS**

- Price trend
- Import distribution
- Export destination
- Manufacturers' export situation

#### **V CONSUMPTION**

- Mass balance
- Market share
- Quality requirement
- Consumption habits
- Development trend

#### **VI OPPORTUNITY**

- Raw material production
- Enterprise merger
- Product structure optimisation & quality improvement

#### **VII FORECAST TO 2013**

- Drivers
- Barriers
- Qualitative forecast
- Quantitative forecast

#### **LIST OF TABLES**

Table I-1 Top 30 TiO<sub>2</sub> manufacturers by capacity, Mar. 2009

Table I-2 Dispersed TiO<sub>2</sub> capacity by region, 2009

Table I-3 Capacity of top10 TiO<sub>2</sub> producers, Mar. 2009

Table I-4 New plants under construction, Mar. 2009

Table I-5 Import origins of titanium ore in China by share, 2006-2008

Table I-6 List of nanometer titanium dioxide manufacturer, Mar. 2009

Table I-7 Chemical fiber grade and electronic titanium dioxide manufacturer, Mar. 2009

Table II-1 Characteristics of the four benchmarking companies

Table II-2 Production cost of Jinzhou Titanium, Mar. 2009

Table II-3 Management cost of Jinzhou Titanium, Mar. 2009

Table II-4 Profit structure of Jinzhou Titanium, Mar. 2009

Table II-5 Production cost of Panyu Titanium, Mar. 2009

Table II-6 Management cost of Panyu Titanium, Mar. 2009

Table II-7 Profit structure of Panyu Titanium, Mar. 2009

Table II-8 Production cost of Jinan Yuxing, Mar. 2009

Table II-9 Management cost of Jinan Yuxing, Mar. 2009

Table II-10 Profit structure of Jinan Yuxing, Mar. 2009

Table II-11 Comparison of additional cost and profit between anatase and rutile TiO<sub>2</sub>

Table II-12 Profit comparison among the benchmarking enterprises, Mar. 2009

Table IV-1 TiO<sub>2</sub> import distribution by end use sector, 2008 (unit: tonne)

Table IV-2 TiO<sub>2</sub> import situation by end use sector, 2008

Table IV-3 China's TiO<sub>2</sub> export destinations, 2008 (unit: quantity: kg; price: USD/kg)

Table IV-4 Export situation of main TiO<sub>2</sub> manufacturers, 2008 (unit: tonne)

Table V-1 TiO<sub>2</sub> apparent consumption evolution, 2005-2008, tonne

Table V-2 Output evolution of coating products, 2005-2008, tonne

Table V-3 TiO<sub>2</sub> consumption in coating, 2005~2008, tonne

Table V-4 Main end users in coating industry, 2008

Table V-5 Output evolution of plastic products, 2005-2008, '000 tonnes

Table V-6 TiO<sub>2</sub> consumption in plastic, 2005~2008, tonne

Table V-7 Main end users in plastic industry, 2008

Table V-8 Output evolution of paper products, 2005-2008, tonne

Table V-9 TiO<sub>2</sub> consumption in papermaking, 2005-2008, tonne

Table V-10 Main end users in papermaking industry, 2008

Table V-11 Output evolution of enamel, 2005-2008, tonne

Table V-12 TiO<sub>2</sub> consumption in enamel, 2005-2008, tonne

Table V-13 Main end users in enamel industry, 2008

Table V-14 Output evolution of welding rod, 2005-2008, tonne

Table V-15 TiO<sub>2</sub> consumption in welding rod, 2005-2008, tonne

Table V-16 Main end users in welding rod industry, 2008

Table V-17 Consumption of synthetic rubber, 2005-2008, tonne

Table V-18 TiO<sub>2</sub> consumption in synthetic rubber, 2005-2008, tonne

Table V-19 Main end users in rubber industry, 2008

Table V-20 Output evolution of chemical fiber, 2005-2008, tonne

Table V-21 TiO<sub>2</sub> consumption in chemical fiber, 2005-2008, tonne

Table V-22 Main end users in chemical fiber industry, 2008

Table V-23 Output evolution of ink, 2005-2008, tonne

Table V-24 TiO<sub>2</sub> consumption in ink, 2005-2008, tonne

Table V-25 Main end users in ink industry, 2008

Table VI-1 Unit capacity comparison of domestic and global TiO<sub>2</sub> projects, 2008, t/a

Table VII-1 China's titanium ore import dependence rate, 2005~2008

Table VII-2 Forecast on China's demand for TiO<sub>2</sub>, 2009~2013, tonne

Table VII-3 Forecast on China's TiO<sub>2</sub> output, 2009~2013, tonne

## List Of Tables

### LIST OF TABLES

- Figure I-1 Expanding capacity and decreasing operating rate
- Figure I-2 Capacity structure of TiO<sub>2</sub> in China, 2005-2009, t/a
- Figure I-3 Geographic distribution of TiO<sub>2</sub> capacity in China, Mar. 2009
- Figure I-4 Trend of capacity concentration to Central and West China
- Figure I-5 Unreasonable product structure, by process
- Figure I-6 China's self-sufficiency rate of titanium ore, 2005-2008
- Figure I-7 Capacity share of titanium ore by region, 2008
- Figure I-8 Price decline of titanium dioxide and sulfuric acid, Jul. 2008 and Mar.2009
- Figure I-9 Capacity change of specialty TiO<sub>2</sub>, 2003-2009, t/a
- Figure IV-1 Import/export price of TiO<sub>2</sub>, 2008
- Figure VI-1 China's import dependence rate of titanium ore, 2005~2008
- Figure VI-2 Domestic titanium ore supply by origin, 2008
- Figure VII-1 China's GDP evolution, 2001~2008
- Figure VII-2 Chinese people's income evolution, 2003~2008
- Figure VII-3 Chinese international trade evolution, 2003~2008

### COMPANIES MENTIONED

Jilin Changchun Dacheng Industrial Group Company Ltd. Roquette China Co., Ltd.  
Nikken Fine Chemical Co., Ltd. Towa Chemical Industry Co., Ltd. Guangxi Khalista  
(Liuzhou) Chemical Industries Ltd. Roquette Korea Ltd. PT. Sorini Agro Asia  
Corporation TBK PT. Sorini Towa Berlian Corporindo

## I would like to order

Product name: The Survey of Titanium Dioxide in China

Product link: <https://marketpublishers.com/r/SF337A8827EEN.html>

Price: US\$ 14,897.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
