## Abstracts

Carbon Black is an important industrial chemical that is widely applied to industries of rubber , plastics, coating, ink, battery, etc. Among these areas, rubber industry is the most important area, consuming around 90% of the world's total carbon black.

In recent years, Chinese carbon black industry has developed very quickly. In the past five years (from 2003 to 2007), Chinese carbon black output soared with CAGR of 23.32%. At the same time, Chinese carbon black production capacity has also sharply mainly due to the quick expansion of many carbon black manufacturers. During this period, carbon black import in China decreased with CAGR of 5.08%, while the export increased with CAGR of 26.55%.

What is the production situation of carbon black in China? Where does the competitiveness of Chinese carbon black manufacturers lies? What are the reasons behind the increasing output? Which factors are driving the export of Chinese carbon black to grow? This report will disclose the answers to them and provide in-depth analysis.

Car industry consumes almost 80% of the total carbon black output in the world. Although the development of car industry in U.S.A. and EU has slowed down, car industry is booming in Asia. What is the prospect of Chinese car industry? And how does car industry influence Chinese carbon black industry? This is also one of the main parts in this report. By reading the report, you will also get a clear carbon black consumption picture in China.

On the other hand, the world market leaders of carbon black have been attaching great importance to the processing technology of carbon black. Every year, they spend huge

funds improving their technology of carbon black production. So what is the technology situation of carbon black in China? What kind of progress has been made in Chinese carbon black technology? This report also leads you to the technological world of Chinese carbon black.

The global demand of carbon black is estimated to grow at CAGR of 4.2% from 2008 to 2012. This report conducts forecast on China's future production of carbon black, including both quantitative forecasts and qualitative forecasts for the coming five years. Furthermore, top 40 manufacturers of carbon black in China are also profiled in this report.

## Contents

Executive summary

Introduction & definition

### **PART I TECHNOLOGY DEVELOPMENT**

I-1 Historic PET Technology Trends

I-1.1 Introduction to DMT Technology

I-1.2 Introduction of PTA Technology

I-2 Current PET Technology Assessment

I-3 Innovations in PET technology

I-4 Product Types of PET

I-5 Comparison of Chinese and Foreign Technologies

### **PART II MARKET TRENDS AND FORECAST**

II-1 Foreign Involvement in Chinese Production

II-2 Key Factors influencing PET Production

II-3 PET Production Difficulties

II-4 Competitiveness of Chinese Production and Supply

II-5 Raw Material Supply Situation

II-5.1 PX

II-5.2 PTA

II-5.3 EG

II-6 Historic PET Market Development

II-7 Historic Import and Export Analysis of PET

II-8 Role of the Government in the PET Industry

II-9 Driving Forces in the PET Industry

II-10 Historic and Current Market Size

II-11 Quantitative Forecasts of PET Market to 2010 to 2015

### **PART III CONSUMPTION PATTERNS OF PET**

III-1 Analysis of PET Applications

III-2 Key Factors Influencing the Mass Consumption of PET

III-3 Consumption in Fiber

III-4 Consumption in Thin Film

- III-5 Consumption in Package Resin
- III-6 Consumption in Other Fields
- III-7 Summary of Major End Users
- III-8 Demand for PET and Future Growth Areas

## **PART IV PRICE TRENDS**

- IV-1 Historic Pricing of PET
- IV-2 Factors Resulting in Price Changes

## **PART V COMPANY INFORMATION**

- V-1 Chinese Traders Importing and Exporting PET
- V-2 Foreign Companies in China
  - V-2.1 Dragon Special Resin (Xiamen) Co., Ltd.
  - ...
  - V-2.6 Hunomik (Shanghai) International Trade Co., Ltd.
- V-3 Profiles of Current Domestic Producers
  - V-3.1 Sinopec Yizheng Chemical Fibre Co., Ltd.
  - ...
  - V-3.29 Henan Luoyang Nanfeng Polyester Co., Ltd.
- V-4 Potential New PET Manufacturers
  - V-4.1 Anhui TSF Electric Materials Co., Ltd.
