Abstracts

Welcome to the Aug. Issue of Titanium Dioxide China Monthly Report.

China Titanium Dioxide Monthly Report will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire TiO₂ industry chain, from the upstream ilmenite and titanium slag markets to the downstream pigments, coatings and plastics markets.

Here is the Editor's Note for you to know about the Aug. issue specifically:

LB Group Co., Ltd. announced to raise TiO₂ prices in late July 2023, followed by many other TiO₂ enterprises, marking the fourth round of price rise in domestic TiO₂ market this year. However, given the depressed domestic economy, TiO₂ demand was still weaker than expected in the traditional peak season and the actual prices mainly stayed steady in Aug. 2023.

According to statistics, the overall output of China's TiCl₄ went up and then dropped in Jan.–July 2023. During this period, China produced 928,150 tonnes of TiCl₄, slightly inching up by 0.22% YoY.

Important market dynamics in Aug. 2023

On 15 Aug., 2023, CNNC Hua Yuan Titanium Dioxide Co., Ltd. announced to purchase shares of two phosphorus chemical enterprises to improve new energy industrial layout.

Henan Billions New Materials Co., Ltd., a holding subsidiary of LB Group Co., Ltd., submitted the self-acceptance environmental information of its 100,000 t/a chloride-process TiO₂ expansion project on a relevant platform on 3 Aug., 2023.

On 28 July, 2023, the ground-breaking ceremony of the titanium whole industrial chain integration project—basic material industrial park was held in Yishui County, Linyi City, Shandong Province.

Titanium Dioxide China Monthly Report is a monthly published newsletter, which can be downloaded in PDF format. The subscription mode for this newsletter is yearly and the subscriber will receive 12 issues per year.

Contents

Headline

Editor's Note

Column 1 Market Dynamics

TiO₂ prices rise recently

China's TiCl₄ production in Jan.–July 2023

EAEU announces anti-dumping investigation against China's TiO₂

China's real estate investment slips by 7.6% YoY in Jan.–July 2023

Column 2 Company Dynamics

Net profits of several TiO₂ enterprises decline YoY in H1 2023

CNNC TD acquires shares of two phosphorus chemical firms

Billions New Materials' chloride-process TiO₂ expansion project

Titanium whole industrial chain integration project in Yishui County

Chemours shuts down Taiwan TiO₂ factory

Changtai New Material resumes production of high titanium slag

Column 3 Political Factors

Implementation Plans for Carbon Peaking in Key Sectors in Fujian

Shanghai promotes use of low-VOC coatings

Column 4 Downstream Industrial Information

H1 2023 reports of several coating enterprises

Chenguang Metal Paint to build capacity of 270,000 t/a coatings

Planning permission for coating project of Shandong Yong'an

Shandong Jiameitai's 65,000 t/a high-performance environmental coating project

Hebei Meishibang's coating project

Column 5 Import and Export

China's TiO₂ exports in July 2023 increase YoY

China's ilmenite import volume grows YoY in July 2023

Column 6 Price Update

Titanium market maintains stability while showing strong momentum in Aug.

Transaction prices of ilmenite in some areas
