Abstracts

Vitamins China E-News provides you with real-time intelligence on China's vitamins market.

It is a monthly published newsletter, which can be downloaded in PDF format. The subscription period is yearly, grants the subscriber 12 issues in total.

China is the world's largest exporter of vitamins, while the domestic market has also expanded rapidly in recent years thanks to growing demand from the feed and pharmaceuticals markets. Now, competition in the industry is shifting from producing API to higher-margin pharmaceutical-grade products, while China's tougher stance on environmental protection is also having an effect.

Vitamins China E-News will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire vitamins industry chain, from raw materials to end consumption. This includes:

- Breaking news from China and abroad

- The latest market data, including price information for raw materials, intermediates and end products, import/export data, production, consumption, operating rates, etc.

- In-depth analysis of market trends, Chinese government policy, the performance of leading Chinese producers, M&A, new technologies, and more

- Expert commentary from industry insiders, including regular guest articles and interviews with insiders at leading Chinese manufacturers, associations and government organizations

HEADLINE

On 13 Oct., the Guidelines for Anti-monopoly in the Field of APIs (Consultation Paper) was publicized by the State Administration for Market Regulation to solicit opinions from the publish date until 30 Oct.

Haoyuan Chemexpress noticed on 28 Sept. that its eldecalcitol and intermediate project gained outstanding innovation silver award in the 32nd Shanghai Outstanding Invention Trial and therefore aroused wide concerns.

EIA reports of Brother Pharmaceutical's two projects were publicized in late Sept. The projects are 13,000 t/a VB3, 3,000 t/a fragrance and intermediates project (material changes) and 2,190 t/a fragrance, 8 t/a APIs, 1,500 t/a vitamin and intermediate project.

On 28 Sept., Hongda Biological's food and feed additive project was publicized. The project is newly built for production of food and feed additive VK2 powder/oil.

On 28 Sept., the EIA report of Xiangmin Pharmaceutical's 15 t/a ascorbyl glucoside and 15.625 t/a NMN project gained intended approval from and was published by the Linli Environmental Protection Department of Changde City, Hunan Province.

On 9 Oct., Arawana publicized its IPO prospect on the GEM, disclosing performances of Arawana and its subsidiary, Wilmar Nutrition.

Hanshang Group and its subsidiary, Hanshang Health proposed to acquire Dikang Pharmaceutical's 100% shares with USD132.75 million (RMB900 million). After the acquisition, Dikang Pharmaceutical will become Hanshang Group's wholly-owned subsidiary.

On 13 Oct., Kingdomway announced that its wholly-owned subsidiary, Kingdomway Pharmaceutical has obtained Food Production License for VK2 oil miscible liquid (by fermentation process).

In August, China's vitamin export suffered decreases both in volume and value. And VB1 witnessed rise in export volume (3.86% MoM) yet decline in price (10.54% MoM).

Domestic vitamin witnessed a sluggish market in Oct. Despite positive news for VB3, its

price has been falling since June.
