Abstracts

Description:

First developed by Dow Chemical Company in 1965, chlorpyrifos has been widely applied in over 100 countries across the world. Till now, chlorpyrifos has become the largest organophosphorus insecticide worldwide in both volume and value.

In last decade, chlorpyrifos industry has been witnessing huge change in the world: major production bases of chlorpyrifos are being transferred; consumption structure of chlorpyrifos for agricultural and non-agricultural use is changing; Import and export situation in major production and consumption countries is also quite different compared with that in 1990s.

This report is an intelligence report on chlorpyrifos industry and reveals the trade and price of chlorpyrifos.

This report attaches importance to the following aspects from both historical change and future trends

Trade flow of both chlorpyrifos technical and formulations

Price trend and influencing factors of chlorpyrifos and difference by regions & brands
