### Table of Content

This iDRD (Insight-based Data-Rich Deliverable) is part of the Government and Federal Government subscriptions. This report includes the latest trends and insights in the US public safety sector, along with IT spending forecasts and first responder demographics. Public safety includes any and all police, fire, and emergency related offices, departments, and agencies within the federal, state and local levels. Local levels include all municipalities, townships, and special districts. Public safety includes homeland security, emergency communications, emergency management, 9-1-1 communications, and all first responder communications. The Expert Guide for this DRD is Stephanie Atkinson.

Sources: Compass Intelligence's segment and market forecasts, which include business expenditures, market demographics, and usage and adoption statistics are built using multiple sources, including proprietary Compass Intelligence research. These sources include, but are not limited to, secondary research, government data and statistics (e.g. Department of Commerce, Federal Communication Commission, Bureau of Labor Statistics and US Census Bureau), primary research, vendor-based research and in-depth interviews with key decision-makers, where relevant. Compass Intelligence selects data sources to provide greatest degree of perspective on each market or segment, in addition to the highest level of data accuracy, stability, and consistency over time.
