Table of Content

This Excel-based Data-rich Deliverable (DRD) that is part of the Business IP and Business Managed & Hosted Services subscription includes market intelligence on revenues on the IP Centrex/Hosted Centrex market by size of business. IP Central Office Exchange Service consists of IP telephony solutions where Centrex service is offered to customers who transmit voice signals to the network as packetized streams usually across a broadband access connection. Compass Intelligence defines Business IP as services used to carry and/or connect to the Internet. This category include Full and Fractional T1 and T3 connections, broadband services, dial-up Internet access, OC-X services and both TDM and VoIP-based Integrated Access. Managed services include expenditures on network-based services that provide a network, application or computing capability to a client and are delivered on an on-going basis by a 3rd party for a recurring fee. Size of business includes SOHO (1-4 employees), Small Business (5-99 employees), Mid-Sized Business (100-999 employees), and Enterprise Business (Over 1000 employees). The Expert Guide for this deliverable is Stephanie Atkinson. Forecasts are from 2005 through 2010 and include annual growth rate, as well as percentage of total market.

Sources: Compass Intelligence's segment and market forecasts, which include business expenditures, market demographics, and usage and adoption statistics are built using multiple sources, including proprietary Compass Intelligence research. These sources include, but are not limited to, secondary research, government data and statistics (e.g. Department of Commerce, Federal Communication Commission, Bureau of Labor Statistics and US Census Bureau), primary research, vendor-based research and in-depth interviews with key decision-makers, where relevant. Compass Intelligence selects data sources to provide greatest degree of perspective on each market or segment, in addition to the highest level of data accuracy, stability, and consistency over time.
