SUMMARY

Artificial Intelligence (AI) Collaboration and Licensing Deals | Global coverage | Deal financials | Contract documents | Deal trends | Leading dealmakers | Collaboration, licensing, development, and research deals | Comprehensive deal directory 2016 to 2023

DESCRIPTION

Artificial Intelligence (AI) Collaboration and Licensing Deals provides a comprehensive understanding and unprecedented access to the artificial intelligence deals entered into by the worlds leading biopharma companies.

Fully revised and updated, the report provides details of artificial intelligence deals from 2016 to 2023.

The report provides a detailed understanding and analysis of how and why companies enter artificial intelligence deals. These deals tend to be multicomponent, starting with collaborative R&D, and commercialization of outcomes.

The report includes collaboration, development, research and licensing deals.

This report contains a comprehensive listing of 863 artificial intelligence deals announced since 2016 including financial terms where available including links to online deal records of actual artificial intelligence partnering deals as disclosed by the deal parties. In addition, where available, records include contract documents as submitted

to the Securities Exchange Commission by companies and their partners.

The initial chapters of this report provide an orientation of artificial intelligence dealmaking.

Chapter 1 provides an introduction to the report.

Chapter 2 provides an overview of the trends in artificial intelligence dealmaking since 2016.

Chapter 3 provides an overview of the leading artificial intelligence deals since 2016. Deals are listed by headline value.

Chapter 4 provides a comprehensive listing of the top 25 most active companies in artificial intelligence dealmaking with a brief summary followed by a comprehensive listing of artificial intelligence deals, as well as contract documents available in the public domain.

Chapter 5 provides a comprehensive and detailed review of artificial intelligence deals signed and announced since Jan 2016, where a contract document is available in the public domain.

Chapter 6 provides a comprehensive and detailed review of artificial intelligence partnering deals signed and announced since Jan 2016. The chapter is organized by specific artificial intelligence technology type in focus.

The report also includes numerous table and figures that illustrate the trends and activities in artificial intelligence deal making since 2016.

In addition, a comprehensive deal directory is provided organized by company A-Z, deal type and therapeutic target. Each deal title links via Weblink to an online version of the deal record and where available, the contract document, providing easy access to each contract document on demand.

Key benefits

Artificial Intelligence (AI) Collaboration and Licensing Deals provides the reader with the following key benefits:

Understand deal trends since 2016

Browse artificial intelligence collaboration and licensing deals

Benchmark analysis – identify market value of transactions

Financials terms - upfront, milestone, royalties

Directory of deals by company A-Z, deal type and therapy area

Leading deals by value

Most active dealmakers

Identify assets and deal terms for each transaction

Access contract documents - insights into deal structures

Due diligence - assess suitability of your proposed deal terms for partner companies

Save hundreds of hours of research time

Report scope

Artificial Intelligence (AI) Collaboration and Licensing Deals is intended to provide the reader with an in-depth understanding of artificial intelligence trends and structure of deals entered into by leading biopharma companies worldwide.

Artificial Intelligence (AI) Collaboration and Licensing Deals includes:

Trends in artificial intelligence dealmaking in the biopharma industry

Directory of artificial intelligence deal records covering pharmaceutical and biotechnology

The leading artificial intelligence deals by value

Most active artificial intelligence licensing dealmakers

Artificial Intelligence (AI) Collaboration and Licensing Deals provides comprehensive access to available records for deals, including contract documents where available.

Analyzing contract agreements allows due diligence of:

What are the precise rights granted or optioned?

What is actually granted by the agreement to the partner company?

What exclusivity is granted?

What is the payment structure for the deal?

How are sales and payments audited?

What is the deal term?

How are the key terms of the agreement defined?

How are IPRs handled and owned?

Who is responsible for commercialization?

Who is responsible for development, supply, and manufacture?

How is confidentiality and publication managed?

How are disputes to be resolved?

Under what conditions can the deal be terminated?

What happens when there is a change of ownership?

What sublicensing and subcontracting provisions have been agreed?

Which boilerplate clauses does the company insist upon?

Which boilerplate clauses appear to differ from partner to partner or deal type to deal type?

Which jurisdiction does the company insist upon for agreement law?

BENEFITS
