SUMMARY

Distribution Deals in Pharmaceuticals and Biotechnology | Global coverage | Deal financials | Contract documents | Deal trends | Leading dealmakers | Comprehensive deal directory 2016 to 2023 Distribution Deals in Pharmaceuticals and Biotechnology provides a detailed understanding and analysis of how and why companies enter distribution deals.

Fully revised and updated, the report provides details of distribution deals from 2016 to 2023.

The report provides access to distribution deal payment terms as announced between the parties. This data provides useful insight into the payment and other deal terms.

Understanding the flexibility of a prospective partner's negotiated deals terms provides critical insight into the negotiation process in terms of what you can expect to achieve during the negotiation of terms. Whilst many smaller companies will be seeking details of the payments clauses, the devil is in the detail in terms of how payments are triggered and rights transferred – contract documents provide this insight where press releases and databases do not.

This report contains a comprehensive listing of distribution deals announced since 2016 as recorded in the Current Agreements deals and alliances database, including financial terms where available, plus links to online copies of actual distribution contract documents as submitted to the Securities Exchange Commission by companies and their partners.

The initial chapters of this report provide an orientation of distribution dealmaking and business activities.

Chapter 1 provides an introduction to the report, whilst chapter 2 provides an overview and analysis of the trends in distribution as well as a discussion on the merits of the type of deal.

Chapter 3 provides an overview of the structure of distribution deals.

Chapter 4 provides a review of the leading distribution deals since 2016. Deals are listed by headline value. Where the deal has an agreement contract published at the SEC a link provides online access to the contract via the Current Agreements deals and alliances database.

Chapter 5 provides a comprehensive listing of the top 25 most active distribution dealmaker companies. Each deal title links via Current Agreements deals and alliances database to an online version of the full deal record, and where available, the actual contract document, providing easy access to each deal record on demand.

Chapter 6 provides a comprehensive and detailed review of distribution deals organized by company A-Z, therapy, technology and industry type signed and announced since 2016 where a contract document is available. Contract documents provide an indepth insight into the actual deal terms agreed between the parties with respect to the distribution deal.

The deal directory includes a comprehensive listing of all distribution deals announced since 2016. Each listing is organized as a deal directory by company A-Z, therapeutic area and technology type. Each deal title links via hyperlink to an online version of the deal record including, where available, the actual contract document.

The report also includes numerous table and figures that illustrate the trends and activities in distribution dealmaking since 2016.

In conclusion, this report provides everything a prospective dealmaker needs to know about distribution alliances.

Key benefits

Distribution Deals in Pharmaceuticals and Biotechnology provides the reader with the following key benefits:

Understand deal trends since 2016

Browse distribution deals

Benchmark analysis – identify market value of transactions

Financials terms
