### SUMMARY

Option and Evaluation Deals in Pharmaceuticals and Biotechnology | Global coverage | Deal financials | Contract documents | Deal trends | Leading dealmakers | Comprehensive deal directory 2016 to 2023 Option and Evaluation Deals in Pharmaceuticals and Biotechnology provides a detailed understanding and analysis of how and why companies enter option and evaluation deals.

Fully revised and updated, the report provides details of option and evaluation deals from 2016 to 2023.

The report provides access to option and evaluation deal payment terms as announced between the parties. This data provides useful insight into the payment and other deal terms.

Understanding the flexibility of a prospective partner's negotiated deals terms provides critical insight into the negotiation process in terms of what you can expect to achieve during the negotiation of terms. Whilst many smaller companies will be seeking details of the payments clauses, the devil is in the detail in terms of how payments are triggered and rights transferred – contract documents provide this insight where press releases and databases do not.

This report contains a comprehensive listing of option and evaluation deals announced since 2016 as recorded in the Current Agreements deals and alliances database, including financial terms where available, plus links to online copies of actual option and evaluation contract documents as submitted to the Securities Exchange Commission by

companies and their partners.

The initial chapters of this report provide an orientation of option and evaluation dealmaking and business activities.

Chapter 1 provides an introduction to the report, whilst chapter 2 provides an overview and analysis of the trends in option and evaluation as well as a discussion on the merits of the type of deal.

Chapter 3 provides an overview of the structure of option and evaluation deals.

Chapter 4 provides a review of the leading option and evaluation deals since 2016. Deals are listed by headline value. Where the deal has an agreement contract published at the SEC a link provides online access to the contract via the Current Agreements deals and alliances database.

Chapter 5 provides a comprehensive listing of the top 25 most active option and evaluation dealmaker companies. Each deal title links via Current Agreements deals and alliances database to an online version of the full deal record, and where available, the actual contract document, providing easy access to each deal record on demand.

Chapter 6 provides a comprehensive and detailed review of option and evaluation deals organized by company A-Z, therapy, technology and industry type signed and announced since 2016 where a contract document is available. Contract documents provide an indepth insight into the actual deal terms agreed between the parties with respect to the option and evaluation deal.

The deal directory includes a comprehensive listing of all option and evaluation deals announced since 2016. Each listing is organized as a deal directory by company A-Z, therapeutic area and technology type. Each deal title links via hyperlink to an online version of the deal record including, where available, the actual contract document.

The report also includes numerous table and figures that illustrate the trends and activities in option and evaluation dealmaking since 2016.

In conclusion, this report provides everything a prospective dealmaker needs to know about option and evaluation alliances.
