Viral Vector Collaboration and Licensing Deals | Global coverage | Deal financials | Contract documents | Deal trends | Leading dealmakers | Collaboration, licensing, development, and research deals | Comprehensive deal directory 2016 to 2023

DESCRIPTION

Viral Vector Collaboration and Licensing Deals provides a comprehensive understanding and unprecedented access to the viral vector deals entered into by the worlds leading biopharma companies.

Fully revised and updated, the report provides details of viral vector deals from 2016 to 2023.

The report provides a detailed understanding and analysis of how and why companies enter viral vector deals. These deals tend to be multicomponent, starting with collaborative R&D, and commercialization of outcomes.

The report includes collaboration, development, research and licensing deals.

This report contains a comprehensive listing of 377 viral vector deals announced since 2016 including financial terms where available including links to online deal records of actual viral vector partnering deals as disclosed by the deal parties. In addition, where available, records include contract documents as submitted to the Securities Exchange Commission by companies and their partners.

The initial chapters of this report provide an orientation of viral vector dealmaking.

Chapter 1 provides an introduction to the report.

Chapter 2 provides an overview of the trends in viral vector dealmaking since 2016.

Chapter 3 provides an overview of the leading viral vector deals since 2016. Deals are listed by headline value.

Chapter 4 provides a comprehensive listing of the top 25 most active companies in viral vector dealmaking with a brief summary followed by a comprehensive listing of viral vector deals, as well as contract documents available in the public domain.

Chapter 5 provides a comprehensive and detailed review of viral vector deals signed and announced since Jan 2016, where a contract document is available in the public domain.

Chapter 6 provides a comprehensive and detailed review of viral vector partnering deals signed and announced since Jan 2016. The chapter is organized by specific viral vector technology type in focus.

The report also includes numerous table and figures that illustrate the trends and activities in viral vector deal making since 2016.

In addition, a comprehensive deal directory is provided organized by company A-Z, deal type and therapeutic target. Each deal title links via Weblink to an online version of the deal record and where available, the contract document, providing easy access to each contract document on demand.
