SUMMARY

Ophthalmics Collaboration and Licensing Deals | Global coverage | Deal financials | Contract documents | Deal trends | Leading dealmakers | Collaboration, licensing, development, and research deals | Comprehensive deal directory 2016 to 2023

DESCRIPTION

Ophthalmics Collaboration and Licensing Deals provides a comprehensive understanding and unprecedented access to the ophthalmics deals entered into by the worlds leading biopharma companies.

Fully revised and updated, the report provides details of ophthalmics deals from 2016 to 2023.

The report provides access to deal payment terms as announced between the parties. This data provides useful insight into the payment and other deal terms.

Understanding the flexibility of a prospective partner's negotiated deals terms provides critical insight into the negotiation process in terms of what you can expect to achieve during the negotiation of terms. Whilst many smaller companies will be seeking details of the payments clauses, the devil is in the detail in terms of how payments are triggered and rights transferred – contract documents provide this insight where press releases and databases do not.

This report contains a comprehensive listing of collaboration and licensing deals

announced since 2016 as recorded in the Current Agreements deals and alliances database, including financial terms where available, plus links to online copies of actual licensing contract documents as submitted to the Securities Exchange Commission by companies and their partners.

The initial chapters of this report provide an orientation of ophthalmics dealmaking and business activities. Chapter 1 provides an introduction to the report, whilst chapter 2 provides an analysis of the trends in ophthalmics dealmaking.

Chapter 3 covers the financial deal terms for deals signed in the ophthalmics field with stage of development announced. Deals are listed and sectioned by headline value, upfront payment, milestone payment and royalty rates.

Chapter 4 provides a review of the top 25 most active biopharma companies in ophthalmics dealmaking. Where the deal has an agreement contract published at the SEC a link provides online access to the contract via the Current Agreements deals and alliances database.

Chapter 5 provides a comprehensive and detailed review of ophthalmics deals signed and announced since 2016 where a contract document is available. Each deal title links via Weblink to an online version of the actual contract document, providing easy access to each contract document on demand.

Chapter 6 provides a comprehensive directory of ophthalmics deals listed by therapeutic target.

The report also includes numerous table and figures that illustrate the trends and activities in ophthalmics deal making since 2016.

In addition, a comprehensive deal directory is provided organized by company A-Z and technology type. Each deal title links via Weblink to an online version of the deal record and where available, the contract document, providing easy access to each contract document on demand. Key benefits
