Executive Summary

The board portals can be segmented on the basis of Generations as well into Gen 1.0, Gen 2.0, Gen 3.0 and Gen 4.0. Over the generations, the board portals have become much simpler, technically advanced and have become more of digital assistants to the board members. The Gen 4.0 board portal is an expectation that what an ideal board portal should be like.

The acceptance and use of board portal have increased significantly over the years. The global portal market is projected to grow at a significant growth rate over the forecasted period i.e. 2020 to 2024. The factors driving the global board portal market are increasing security concern in the organization, better collaboration between directors, lower cost of board portal solutions, growing trend of paperless board meetings, increasing demand of board portals in educational institutions etc. Yet there are some challenges which this market faces, such as balancing security issue, regulatory compliance, lack of skilled workforce, etc.

Covid-19 is further estimated to increase the usage of board portals. Need for secure board portal software with end to end encryption has spiked due to increasing incidence of cyber attacks during the pandemic.
