## Abstracts

### Scope of the Report

The report titled “Global Dual Lens Smartphone Market: Trends & Opportunities (2016-2020)” provides an in-depth analysis of the global dual lens smartphone market with detailed analysis of market sizing and growth, market share and economic impact of the industry. The report also provides the shipment analysis of major players in the market such as Apple and Samsung. The report also provides an overview of global smartphone market which includes market size in terms of volume and smartphone users worldwide along with the market segments.

The report provides country analysis of China for the dual lens smartphone market which includes market sizing in terms of volume along with the penetration rate of dual lens smartphones.

Furthermore, the report assesses the key opportunities in the market and outlines the factors that are and will be driving the growth of the industry. Growth of the global dual lens smartphone market has also been forecasted for the period 2016-2020, taking into consideration the previous growth patterns, the growth drivers and the current and future trends. The competition in the global dual lens smartphone market is stiff and dominated by the big players like Huawei. Further, key players of the dual lens smartphone market HTC Corporation and LG Electronics Inc. are also profiled with their financial information and respective business strategies.

### Country Coverage

Global

China

## Company Coverage

Huawei Investment & Holding Co., Ltd.

HTC Corporation

LG Electronics Inc.

## Executive Summary

Global dual lens smartphone market is at its nascent stage as the market evolved in 2014 after the launch of HTC and Huawei dual lens smartphones. Major players of the market launched new smartphones with dual lens cameras by the end of 2015 thus; the market is projected to have grown significantly in 2015. For the span of next five years i.e. 2016-2020, projections are made that the market would rise tremendously at a significant CAGR. China is expected to lead the market accounting the significant share in the market.

The growth drivers for the global dual lens smartphone market are: expansion in fusion technology, production capacity expansion along with the rise in disposable income. Despite the market is governed by various growth drivers, there are certain challenges faced by the market such as: technological hurdles, stable sourcing of image sensor and migration to finer processes for image sensors, high-cost burdens, and algorithms.

## Contents

### 1. EXECUTIVE SUMMARY

### 2. INTRODUCTION

#### 2.1 Advantages of Dual Lens Cameras

#### 2.2 3D Mapping and Dual Lens Cameras

##### 2.2.1 3D Mapping Applications

#### 2.3 Dual Lens Smartphones

##### 2.3.1 Fusion Technology and Dual Lens Camera in Smartphones

##### Enhanced Autofocus

##### Slim Smartphones

### 3. GLOBAL SMARTPHONE MARKET: SIZING AND GROWTH

#### 3.1 Global Smartphone Market by Volume: Actual and Forecast

#### 3.2 Global Smartphone Users: Actual and Forecast

#### 3.3 Global Smartphone Market by Segments: Actual and Forecast

### 4. GLOBAL DUAL LENS SMARTPHONE MARKET: AN ANALYSIS

#### 4.1 Global Dual Lens Smartphone Market: Sizing and Growth

##### 4.1.1 Global Dual Lens Smartphone Market by Volume: Actual and Forecast

##### 4.1.2 Global Dual Lens Smartphone Market as a Share of Global Smartphone Market

#### 4.2 Global Dual Lens Smartphone Market by Players: An Analysis

##### 4.2.1 Apple Global Dual Lens Smartphone Shipment by Volume: Forecast

##### 4.2.2 Samsung Global Dual Lens Smartphone Shipment by Volume: Forecast

#### 4.3 China Dual Lens Smartphone Market: Sizing and Growth

##### 4.3.1 China Dual Lens Smartphone Market by Volume: Actual and Forecast

##### 4.3.2 China Dual Lens Smartphone Penetration Rate: Actual and Forecast

### 5. MARKET DYNAMICS

#### 5.1 Growth Drivers

##### 5.1.1 Expansion in Fusion Technologies

##### 5.1.2 Production Capacity Expansion

##### 5.1.3 Rise in Disposable Income

#### 5.2 Challenges

5.2.1 Technological Hurdles

5.2.2 Other Challenges

5.3 Market Trends

5.3.1 Technological Developments

Lens Combinations

Actuator Use

Infrared Light Lenses

5.3.2 Introduction of New Smartphones with Dual Lens Cameras

Samsung Galaxy GS7

Apple Next Launch

5.3.3 Dual Lens Cameras vs. DSLRs

5.3.4 Higher Demand for Components

5.3.5 Price Competitive

## **6. COMPETITIVE LANDSCAPE**

6.1 Dual Lens Camera Smartphones Components Players

6.2 Major Beneficiaries

## **7. COMPANY PROFILE**

7.1 Huawei Investment & Holding Co., Ltd.

7.1.1 Business Overview

7.1.2 Financial Overview

7.1.3 Business Strategy

Dual Brand Strategy

Research and Development

7.2 HTC Corporation

7.2.1 Business Overview

Accolades and Achievements

7.2.2 Financial Overview

7.2.3 Business Strategy

New Product Launch

7.3 LG Electronics Inc.

7.3.1 Business Overview

7.3.2 Financial Overview

7.3.3 Business Strategy

New Marketing Strategy for Smartphones

Introduction of New Brand
