Abstracts

Scope of the Report

The report titled “Global Food Texturant Market: Size, Trends & Forecasts (2018-2022)”, provides an in-depth analysis of the global food texturants market by value and by volume. The report also gives an insight of the global food texturants market by value, by segment and by region, etc.

The report provides a regional analysis of the food texturant market, including the following regions: North America, Middle East & Africa, Asia-Pacific, Latin America and Europe.

The report also assesses the key opportunities in the market and outlines the factors that are and will be driving the growth of the industry. Growth of the overall global food texturants market has also been forecasted for the period 2018-2022, taking into consideration the previous growth patterns, the growth drivers and the current and future trends.

The considerable variety of texturising products in the market implies that market is very broad and one of the least consolidated amongst ingredients types.

The competition in the global food texturant market is driven by big players, Cargill Incorporated, Tate & Lyle PLC, Ingredion Incorporated and DuPont. Further, key players of the food texturant market Cargill Incorporated, Tate & Lyle PLC, Ingredion Incorporated and DuPont are also profiled with their financial information and respective business strategies.

Country Coverage

North America

Europe

Asia-Pacific

South America

Middle East & Africa

Company Coverage

Tate & Lyle

Ingredion Incorporated

Cargill, Incorporated

DowDuPont (DuPont)

Executive Summary

Ingredients term can be defined as a substance or compounds, artificially or naturally derived, that are mixed or combined, to add specific characteristics and functionalities to an end product. A special ingredient is any substance that is added to a food to achieve a desired effect.

The different types of special ingredients are flavours & fragrances, texturants, nutritional ingredients, enzymes, sweeteners, flavour enhancers, acidulants, food colors, food preservatives and cultures whose primary role is to enhance the performance of food products in which they are added. Each segment demonstrates unique feature when applied in different type of food and beverages.

Functions of specialty ingredients include enhanced appearance of product, improved taste and texture of product and extended shelf life of the product.

Texturants are a type of specialty ingredient, used to control and modify the texture and mouthfeel of the food and beverage products. Food texturants are could be made of synthetic chemicals or could be extracted from natural substance and are used as a direct additive in products to provide the required physical appearance to the food product.

Texturizing agents are specifically used in order to provide smoothness, creaminess, clarity, thickness, pulpiness, and thus establishing a particular flavour and appearance of the product. The texture of the food products should be appealing enough to grab the attention of the consumers.

The common food texturants include emulsifiers, hydrocolloids, gums, stabilizers and others. They are widely used in various industries such as bakery and confectionery, dairy and frozen desserts, beverages, oil and fats, sweet and savory snacks, meat products, and others.

Over-consumption of texturants could lead to obesity, diabetes, diarrhea, slow metabolism, etc.

The global food texturant market has increased at a significant CAGR during the years 2016 and 2017 and projections are made that the market would rise in the next four years i.e. 2018-2022 tremendously. The food texturant market is expected to increase due to growth in retail e-commerce industry, increased meat consumption, increased cheese and yogurt consumption, etc. Yet the market faces some challenges such as, barriers to entry, health issues, etc.

Contents

1. EXECUTIVE SUMMARY

2. INTRODUCTION

2.1 Specialty Ingredients: An Overview

2.1.1 Specialty Ingredients: Meaning

2.1.2 Specialty Ingredients: Value Chain

2.1.3 Types of Specialty Ingredients

2.2 Food Texturants: An Overview

2.2.1 Key Functions of Food Texturants

2.2.2 Application of Food Texturants

2.2.3 Food Texturants Market by Segments

2.2.4 Major Food Texturants: Thickeners and Stabilizers by Principal Functions as Food Additives

2.2.5 Commonly Used Food Texturants

2.2.6 Disadvantages of Food Texturants

3. GLOBAL MARKET ANALYSIS

3.1 Global Specialty Ingredient Market: An Analysis

3.1.1 Global Specialty Ingredient Market by Value

3.1.2 Global Specialty Ingredient Market by Segment (Flavours & Fragrances, Texturants, Nutritional Ingredients, Personal Care Ingredients, Enzymes, Sweeteners, Flavour Enhancers, Acidulants, Food Colours, Food Preservatives, Cultures)

3.2 Global Food Texturants Market: An Analysis

3.2.1 Global Food Texturants Market by Value

3.2.2 Global Food Texturant Market Value by Type (Hydrocolloids, Emulsifiers, Starches)

3.2.3 Global Food Texturant Market Value by Geography (North America, Europe, Asia-Pacific, South America, Middle East & Africa)

3.2.4 Global Hydrocolloids based Food Texturants Market by Value

3.2.5 Global Emulsifiers Based Food Texturants Market by Value

3.2.6 Global Starch based Food Texturant Market by Value

3.2.7 Global Starch-Based Texturants Market Value by Application (Convenience Food, Dairy, Bakery, Beverage, Soups, Sauces, Dressings, Other, Confectionery)

4. REGIONAL MARKET ANALYSIS

- 4.1 North America Food Texturant Market: An Analysis
 - 4.1.1 North America Food Texturant Market by Value
- 4.2 Europe Food Texturant Market: An Analysis
 - 4.2.1 Europe Food Texturant Market by Value
- 4.3 Asia-Pacific Food Texturant Market: An Analysis
 - 4.3.1 Asia-Pacific Food Texturant Market by Value
- 4.4 South America Food Texturant Market: An Analysis
 - 4.4.1 South America Food Texturant Market by Value
- 4.5 Middle East & Africa Food Texturant Market: An Analysis
 - 4.5.1 Middle East & Africa Food Texturant Market by Value

5. MARKET DYNAMICS

5.1 Growth Drivers

- 5.1.1 Accelerating Meat Consumption
- 5.1.2 Rising Cheese Production & Consumption
- 5.1.3 Escalating Worldwide Yogurt Production
- 5.1.4 Increasing Global Retail Consumption of Chocolate Confectionery
- 5.1.5 Growing Global Coffee Consumption
- 5.1.6 Escalating Packaged Food Demand
- 5.1.7 Increasing Demand for Fast Food and Convenience Foods
- 5.1.8 Rising Consumer Expenditure and Disposable Income
- 5.1.9 Increasing Global Youth Population
- 5.1.10 Growing Global GDP Per-capita
- 5.1.11 Escalating Global Urban Population
- 5.1.12 Declining Unemployment

5.2 Challenges

- 5.2.1 High Cost of the Raw Materials
- 5.2.2 Fluctuating Prices of Raw Materials
- 5.2.3 Barriers to Entry
- 5.2.4 Health Issues

5.3 Market Trends

- 5.3.1 Product Launches Claiming Clean Label
- 5.3.2 Global Food Texturant Market Consumers by Geography
- 5.3.3 Increasing Growth Rate of Emerging Economies
- 5.3.4 Growing Alcohol Consumption
- 5.3.5 Growth in Retail E-commerce Sales
- 5.3.6 Rising Demand for Juices, Soft Drinks, and Alcoholic Drinks

- 5.3.7 Changing Family Settings
- 5.3.8 Fast-Paced Lifestyles and Lack of Indulgence in Cooking
- 5.3.9 Food Innovation
- 5.3.10 Regulations Relating to Texturants
- 5.3.11 Health Benefits of Texturants
- 5.3.12 Penetration of Key Texturant Players into China
- 5.3.13 Natural Emulsifiers
- 5.3.14 Canned Fruits and Veggies
- 5.3.15 Social Festivities

6. COMPETITIVE LANDSCAPE

- 6.1 Global Ingredient Market Top Players by Key Texturant Capabilities
- 6.2 Global Texturant (Starch Based) Market Players by Share

7. COMPANY PROFILE

- 7.1 Tate & Lyle
 - 7.1.1 Business Overview
 - 7.1.2 Financial Overview
 - 7.1.3 Business Strategy
- 7.2 Ingredion Incorporated
 - 7.2.1 Business Overview
 - 7.2.2 Financial Overview
 - 7.2.3 Business Strategy
- 7.3 Cargill, Incorporated
 - 7.3.1 Business Overview
 - 7.3.2 Financial Overview
 - 7.3.3 Business Strategy
- 7.4 DowDuPont (DuPont)
 - 7.4.1 Business Overview
 - 7.4.2 Financial Overview
 - 7.4.3 Business Strategy
