Abstracts

Scope of the Report

The report titled “Global In-Vitro-Fertilization (IVF) Market: Trends and Opportunities (2015-2019)”, analyzes the potential opportunities and significant trends in the global in-vitro-fertilization market. The market size and forecast in value terms and number of IVF cycles for global IVF market has been provided for the period 2010 to 2019, considering 2014 as the base year. The report provides market share analysis of the global IVF market by regions, treatment costs, players and segments. The market is further segment by drug mechanism and different dosage forms.

The report provides detailed country analysis of the IVF markets of Australia, India and the United States. The market size and forecast both in terms of value and volume is covered in the country analysis segment. Also, the various factors driving growth have been analyzed specific to each country.

The report also profiles key market players such as Vitrolife, Monash IVF and OvaScience on the basis of attributes such as company overview, recent developments, strategies adopted by the market leaders to ensure growth, sustainability, financial overview and recent developments.

Country Coverage

United States

India

Australia

Company Coverage

Monash Group

OvaScience

Vitrolife

Executive Summary

IVF stands for in-vitro-fertilization and refers to artificial fertilization for people that want to have a baby but are having difficulty getting pregnant.

Rising incidences of infertility as a consequence of increasing maternal age as more women are now starting families later in life is leading to a rise in demand for IVF treatment. Furthermore, lifestyle induced disorders such as obesity and smoking are contributing towards high infertility rates. These together are thus driving the in-vitro fertilization market, as women and their families prefer in-vitro fertilization procedure more compared to the other available procedures. The global in-vitro fertilization market is also witnessing lucrative growth with an increase in medical tourism activities in the developing economies such as India, China and Brazil. The major limiting factor of IVF market is the cost involved in the treatment. Another challenge is the low level of awareness in the developing economies.

The US emerged as the highest revenue contributing regional market for IVF in 2013. The growth of this market in the region is attributed to the presence of large population base suffering from infertility. Moreover, the availability of high disposable income with the people of this region is contributing to the growth of the IVF market. Asia Pacific is expected to grow at a highest CAGR over the forecasted period of 2015-2019 because of the presence of unmet medical needs coupled with favorable government initiatives pertaining to the development of healthcare infrastructure in emerging economies such as India, China and Japan. Australia has the highest market value and number of IVF cycles in the Asia-Pacific region. Furthermore, increasing medical tourism and availability of cost effective medical procedures in India are expected to positively reinforce In-Vitro fertilization market.

Contents

1. EXECUTIVE SUMMARY

2. IN-VITRO-FERTILIZATION (IVF): AN INTRODUCTION

2.1 IVF Treatment Procedure

2.2 Causes of Infertility

2.4 Risk Related to IVF Treatment

2.4.1 Multiple Births

2.4.2 Premature Delivery and Low Birth Weight

2.4.3 Ovarian Hyperstimulation Syndrome

2.4.4 Miscarriage

2.4.5 Egg-Retrieval Procedure Complications

2.4.6 Ectopic Pregnancy

2.4.7 Birth Defects

2.4.8 Ovarian Cancer

2.4.9 Stress

3. IN-VITRO-FERTILIZATION (IVF): GLOBAL MARKET ANALYSIS

3.1 Global IVF Market – Sizing and Growth: Actual & Forecast

3.2 Global IVF Market Share: An Analysis

3.2.1 Global IVF Market Share by IVF Cycles per Region

3.2.2 Global IVF Treatment Cost by Regions

3.2.3 Global Fertility Rates by Regions

3.2.4 Global IVF Penetration by Regions

3.2.5 Global IVF Market by Segments

3.2.6 Global IVF Market by Key Players

4. COUNTRY ANALYSIS:IN-VITRO-FERTILIZATION (IVF) MARKET

4.1 Australia IVF Market: An Analysis

4.1.1 Australia IVF Market: Actual & Forecast

By Value

By Number of IVF Cycles

4.1.2 Australia IVF Market Drivers

Reproductive Age of Women

Increasing Penetration (% of women opting for IVF over natural conception)

Increasing Social Acceptance & Awareness

Fertility Rate

Affordability

4.2 India IVF Market: An Analysis

4.2.1 India IVF Market: Actual & Forecast

By Value

By Number of IVF Cycles

4.2.2 India IVF Market Drivers

Increasing Fertility Tourism

Declining Fertility Rate

Affordability

4.3 The US IVF Market: An Analysis

4.3.1 The US IVF Market: Actual and Forecast

By Value

By Number of IVF Procedures

By Number of Infants Births by Using IVF

4.3.2 The US IVF Market Breakdown

By Age Group

By Number of Embryos Transferred

4.3.3 The US IVF Market Drivers

Birth Rates

Declining Fertility Rates

Increasing Same Sex Married Couples

Obesity

4.3.4 US IVF Industry Landscape and M&A Activity

5. MARKET DYNAMICS: IN-VITRO-FERTILIZATION (IVF) MARKET

5.1 Growth Drivers

5.1.1 Decline in Fertility Rates

5.1.2 Delay in Motherhood

5.1.3 Rising Healthcare Expenditure

5.1.4 IVF Success Rates

5.2 Challenges

5.2.1 Physical and Emotional Impact

5.2.2 Legal Issues

5.2.3 Ethical Issues

5.2.4 Clinical Issues

5.2.5 Cost of the Treatment

5.2.6 Multiple Pregnancies

5.3 Market Trends

5.3.1 Medical Tourism

5.3.2 New Technology Trends

Robotic Surgery Used in Tubal Reversal

Transfer of Vitrified Embryos

Surrogate Alternatives

5.3.3 Rise in Same Sex Marriages

6. COMPETITIVE LANDSCAPE: IN-VITRO-FERTILIZATION (IVF) MARKET

7. COMPANY PROFILES: IN-VITRO-FERTILIZATION (IVF) MARKET

7.1 Monash

7.1.1 Business Overview

7.1.2 Financial Overview

7.1.3 Business Strategy

7.2 Vitrolife

7.2.1 Business Overview

7.2.2 Financial Overview

7.2.3 Business Strategy

7.3 OvaScience

7.3.1 Business Overview

7.3.2 Financial Overview

7.3.3 Business Strategy
