Abstracts

Scope of the Report

The report titled “Global Industrial Emission Control Systems Market: Size & Forecast with Impact Analysis of COVID-19 (2021-2025)”, provides an in depth analysis of the global industrial emission control systems market by value, by product type, by region, etc. The report provides a regional analysis of the industrial emission control systems market, including the following regions: Asia Pacific (China and Rest of Asia Pacific), North America (the US and Rest of North America), Europe (Germany, France and Rest of Europe), Latin America, and Middle East & Africa. The report also provides a detailed analysis of the COVID-19 impact on the industrial emission control systems market.

The report also assesses key opportunities in the market and outlines the factors that are and will be driving the growth of the industry. Growth of the overall global industrial emission control systems market has also been forecasted for the period 2021-2025, taking into consideration the previous growth patterns, the growth drivers and the current and future trends.

The global industrial emission control systems market is fragmented with many major market players operating worldwide. The manufacturers of emission control systems produce different types of products to cater to the needs of various sectors. The key players of the industrial emission control systems market are General Electric Company, Mitsubishi Heavy Industries, Ltd. (Mitsubishi Power), Johnson Matthey, and Babcock & Wilcox Enterprises, Inc. are also profiled with their financial information and respective business strategies.

Country Coverage

Asia Pacific (China and Rest of Asia Pacific)

North America (the US and Rest of North America)

Europe (Germany, France and Rest of Europe)

Latin America

Middle East & Africa

Company Coverage

General Electric Company

Mitsubishi Heavy Industries, Ltd. (Mitsubishi Power)

Johnson Matthey

Babcock & Wilcox Enterprises, Inc.

Executive Summary

The industrial emission control systems refer to devices that monitor and reduce the level of emissions released by various industries. Industrial segments, such as power plants, refineries, cement plants, mining & metals, chemical industries, and others use these systems to protect the environment from the release of harmful pollutants. Industrial emission control systems work in a number of ways. They capture and hold onto pollutants, or they keep the industry's emission level at or under legal limits.

The major reasons to use industrial emission control systems is to protect the human health; to prevent economic wastes; to increase worker productivity; to help in preventing climate change; and to reduce mortality levels.

The industrial emission control systems market can be segmented on the basis of product type (Electrostatic Precipitators, Fabric Filters, Scrubbers, Cyclone Separators,

Thermal Oxidizers, Catalytic Systems, and Others); and application (Power Plants, Chemicals and Petrochemicals, Cement, Metal, Iron and Steel, Automotive, and Others).

The global industrial emission control systems market has increased significantly during the years 2018-2020 and projections are made that the market would rise in the next four years i.e. 2021-2025 tremendously. The industrial emission control systems market is expected to increase due to growing industrial activities, rising construction activities, increase in usage of coal for power generation, increasing level of air pollution, stringent environment regulations, etc. Yet the market faces some challenges such as economic slowdown, high cost involved, etc.

Contents

1. EXECUTIVE SUMMARY

2. INTRODUCTION

2.1 Industrial Emission: An Overview

2.2 Industrial Emission Control Systems: An Overview

2.2.1 Benefits of Industrial Emission Control Systems

2.3 Industrial Emission Control Systems Segmentation: An Overview

2.3.1 Industrial Emission Control Systems Segmentation by Product Type

2.3.2 Industrial Emission Control Systems Segmentation by Application

3. GLOBAL MARKET ANALYSIS

3.1 Global Industrial Emission Control Systems Market: An Analysis

3.1.1 Global Industrial Emission Control Systems Market by Value

3.1.2 Global Industrial Emission Control Systems Market by Product Type (Electrostatic Precipitators, Catalytic Systems, Fabric Filters, Scrubbers, Cyclone Separators, and Others)

3.1.3 Global Industrial Emission Control Systems Market by Region (Asia Pacific, North America, Europe Latin America, and Middle East & Africa)

3.2 Global Industrial Emission Control Systems Market: Product Type Analysis

3.2.1 Global Electrostatic Precipitators Industrial Emission Control Systems Market by Value

3.2.2 Global Catalytic Industrial Emission Control Systems Market by Value

3.2.3 Global Fabric Filters Industrial Emission Control Systems Market by Value

3.2.4 Global Scrubbers Industrial Emission Control Systems Market by Value

3.2.5 Global Cyclone Separators Industrial Emission Control Systems Market by Value

3.2.6 Global Others Industrial Emission Control Systems Market by Value

4. REGIONAL MARKET ANALYSIS

4.1 Asia Pacific Industrial Emission Control Systems Market: An Analysis

4.1.1 Asia Pacific Industrial Emission Control Systems Market by Value

4.1.2 Asia Pacific Industrial Emission Control Systems Market by Region (China and Rest of Asia Pacific)

4.1.3 China Industrial Emission Control Systems Market by Value

4.1.4 Rest of Asia Pacific Industrial Emission Control Systems Market by Value

- 4.2 North America Industrial Emission Control Systems Market: An Analysis
 - 4.2.1 North America Industrial Emission Control Systems Market by Value
 - 4.2.2 North America Industrial Emission Control Systems Market by Region (The US and Rest of North America)
 - 4.2.3 The US Industrial Emission Control Systems Market by Value
 - 4.2.4 Rest of North America Industrial Emission Control Systems Market by Value
- 4.3 Europe Industrial Emission Control Systems Market: An Analysis
 - 4.3.1 Europe Industrial Emission Control Systems Market by Value
 - 4.3.2 Europe Industrial Emission Control Systems Market by Region (Germany, France and Rest of Europe)
 - 4.3.3 Germany Industrial Emission Control Systems Market by Value
 - 4.3.4 France Industrial Emission Control Systems Market by Value
 - 4.3.5 Rest of Europe Industrial Emission Control Systems Market by Value
- 4.4 Latin America Industrial Emission Control Systems Market: An Analysis
 - 4.4.1 Latin America Industrial Emission Control Systems Market by Value
- 4.5 Middle East & Africa Industrial Emission Control Systems Market: An Analysis
 - 4.5.1 Middle East & Africa Industrial Emission Control Systems Market by Value

5. IMPACT OF COVID-19

- 5.1 Impact of COVID-19
 - 5.1.1 Impact of COVID-19 on Air Quality
 - 5.1.2 Impact of COVID-19 on Industrial Emission Control Systems Industry

6. MARKET DYNAMICS

- 6.1 Growth Driver
 - 6.1.1 Growing Industrial Activities
 - 6.1.2 Rising Construction Activities
 - 6.1.3 Increase in Usage of Coal for Power Generation
 - 6.1.4 Increasing Level of Air Pollution
 - 6.1.5 Stringent Environment Regulations
- 6.2 Challenges
 - 6.2.1 Economic Slowdown
 - 6.2.2 High Cost Involved
- 6.3 Market Trends
 - 6.3.1 Escalating Infrastructure Investments
 - 6.3.2 Technological Advancements

7. COMPETITIVE LANDSCAPE

7.1 Global Industrial Emission Control Systems Market Players: A Financial Comparison

7.2 Global Industrial Emission Control Systems Market Players by Research & Development (R&D) Expenses

8. COMPANY PROFILES

8.1 General Electric Company

8.1.1 Business Overview

8.1.2 Financial Overview

8.1.3 Business Strategy

8.2 Mitsubishi Heavy Industries, Ltd. (Mitsubishi Power)

8.2.1 Business Overview

8.2.2 Financial Overview

8.2.3 Business Strategy

8.3 Johnson Matthey

8.3.1 Business Overview

8.3.2 Financial Overview

8.3.3 Business Strategy

8.4 Babcock & Wilcox Enterprises, Inc.

8.4.1 Business Overview

8.4.2 Financial Overview

8.4.3 Business Strategy
