Abstracts

Scope of the Report

The report titled “Global MEMS Microphone Market: Trends & Opportunities (2014-2019)” provides an in-depth analysis of the global MEMS microphone market with detailed analysis of market sizing and growth, market share and economic impact of the industry. Detailed analysis of global MEMS microphone market by performance level, by type and by business segments is also presented in this report. The application of MEMS microphones in business segment like mobile devices, notebooks and media tablet has also been analyzed in the report.

The report also assesses the key opportunities in the market and outlines the factors that are and will be driving the growth of the industry. Growth of the overall global MEMS microphone industry has also been forecasted for the period 2014-2019, taking into consideration the previous growth patterns, the growth drivers and the current and future trends. The competition in global MEMS microphone market is stiff and dominated by the big players like Knowles Electronics, AAC Technologies, STMicroelectronics and Goertek etc. Further, key players of the MEMS microphone industry like Knowles Electronics; AAC Technologies; and InvenSense are also profiled with their financial information and respective business strategies.

Company Coverage

Knowles Electronics

AAC Technologies

InvenSense

MEMS Market: By Application Type

Media Tablet

Notebook

Mobile Handset

MEMS Market: By Performance Level

Very High

High

Standard

Executive Summary

The Micro Electrical-Mechanical System (MEMS) microphone, known as a microphone chip or silicon microphone finds extensive usage in high-quality audio output devices. Most smartphones and tablets use MEMS microphones for the high sound quality and with technological development, advanced miniature MEMS microphones can be easily integrated into compact electronic devices.

The MEMS microphone market is experiencing robust sales growth driven by increased penetration of MEMS microphone in mobile handsets and smartphones and increased demand for high quality sound in consumer electronics by the mobile handsets manufactures like Apple and Samsung. In addition, new applications of MEMS microphones outside of consumer electronics such as automotive and hearing aids will facilitate positive growth prospects for the global MEMS microphone market in the coming years.

The growth as well as the popularity of MEMS microphones started with its adoption in the smartphones and more specifically, the adoption of MEMS by Apple. Apple in 2010

initiated the current boom in MEMS microphone sales when it adopted the devices in its iPhone 4. However, with the addition of MEMS microphones into the highly successful iPad 2 in 2011, Apple's purchasing of the tiny devices went into overdrive. When combined with strong increases in its buys of MEMS microphones for iPhone headsets, Apple outstripped all other rivals to become the largest consumer of the MEMS devices, helping the growth of the overall market.

Contents

1. EXECUTIVE SUMMARY

2. INTRODUCTION: MEMS MICROPHONES

- 2.1 History
- 2.2 Types of Microphone
- 2.3 Structure of MEMS Microphone
- 2.4 Packaging of MEMS Microphone
- 2.5 Key Performance Parameters of MEMS Microphone
- 2.6 MEMS Manufacturing Techniques

3. GLOBAL MEMS MICROPHONE MARKET: SIZING AND GROWTH

- 3.1 Global MEMS Microphone Market Size
- 3.2 Global MEMS Microphone Market Size by Performance Level
- 3.3 Global MEMS Microphone Market Size by Type
- 3.4 Global MEMS Microphone Market Size by Business Segments
 - 3.4.1 Global MEMS Microphone Sales in Mobile Handset Segment
 - 3.4.2 Global MEMS Microphone Sales in Mobile Media Tablet Segment
 - 3.4.3 Global MEMS Microphone Sales in Mobile Notebooks Segment

4. GLOBAL MEMS MICROPHONE MARKET SHARE ANALYSIS

- 4.1 Global MEMS Microphone Market Share
- 4.2 Global MEMS Microphone Market Share by Performance Level
- 4.3 Global MEMS Microphone Market Share by Business Segments
- 4.4 Global MEMS Microphone Market Share by Types
- 4.5 Global MEMS Microphone Market Share by Bare Die Suppliers (Based on Units Shipments)

5. MARKET DYNAMICS: MEMS MICROPHONE MARKET

- 5.1 Global MEMS Microphone Market: Growth Drivers
 - 5.1.1 Rise in Demand for High Quality Sound Levels
 - 5.1.2 Rise in Demand for Multiple Microphone Solutions
 - 5.1.3 High Demand for MEMS Microphones in Mobiles & Smartphones
 - 5.1.4 Rise in Demand from Consumer Electronic Devices

5.2 Global MEMS Microphone Market: Challenges

- 5.2.1 Slow Growth in Global Smartphone Market
- 5.2.2 Intense Competition
- 5.2.3 Standardization of MEMS Microphone

5.3 Global MEMS Microphone Market: Market Trends

- 5.3.1 Advanced MEMS Microphone Packaging
- 5.3.2 Miniaturization of MEMS Microphones
- 5.3.3 Noise Cancellation
- 5.3.4 Increased Applications in Healthcare Segment

6. COMPETITIVE LANDSCAPE: MEMS MICROPHONE MARKET

7. COMPANY PROFILES: MEMS MICROPHONE MARKET

7.1 AAC Technologies Inc.

- 7.1.1 Business Overview
- 7.1.2 Financial Overview
- 7.1.3 Business Strategy

7.2 Knowles Electronics

- 7.2.1 Business Overview
- 7.2.2 Financial Overview
- 7.2.3 Business Strategy

7.3 InvenSense

- 7.3.1 Business Overview
- 7.3.2 Financial Overview
- 7.3.3 Business Strategy
