## Executive Summary

Sweeteners are the alternatives of sugar and are low in calories in comparison. Sweeteners are now more preferred over consumption of sugar, as the latter leads to many health issues such as high blood pressure, heart problems, diabetes, etc. Aspartame, cyclamate, saccharin, stevia, sucralose, mogrosides, high fructose corn syrup, etc. are few types of sweeteners currently available in the market.

Out of all sweeteners, Stevia is the most accepted natural sweetener as it is low in calorie. Stevia is widely popular and is offered in various forms such as stevia extracts, fresh stevia leaves, liquid concentrates and dried leaves. Stevia sweetener comprises of many advantages like it is very safe for diabetic population, it is cost effective, lowers blood pressure and is widely accessible.

Stevia has some disadvantages too- like it is not recommended for pregnant women, etc. Also, stevia exhibit few side effects like allergic reactions to some people, reactions in digestive system, possible drug interaction, kidney toxicity and other side effects.

Global stevia market is expected to increase at high growth rates during the forecasted period (2018-2022). Global stevia market is supported by various growth drivers, such as awareness and adoption of stevia, supportive government initiatives, increase in diabetic population, etc. Yet, the market faces certain challenges, such as, high prices, competition from other sweeteners, lacks ability to sweeten mass market products, etc. Few new market trends are new products launch, demand for antioxidants, demand for organic stevia, etc.
