## EXECUTIVE SUMMARY

The trust and corporate service market refers to the market which provides a wide range of administrative and compliance services to lend assistance to its multinational clients. The services provided by trust and corporate service providers includes, forming and licensing of companies, provides financing and banking services, keeping record and managing the client's assets and wealth, payroll services, tax planning, etc.

The main objective of the market is to build trust between the client and the service providers. Over the years, the market has undergone numerous acquisitions and consolidations from the local level to the regional or global level. The market acts as a business advisor, focusing on personal relationship, high quality of services and expertise.

The trust and corporate service market can be segmented on the basis of client base, service providers, strategies and key drivers of revenue. The trust and corporate service market is largely focused on five core principles, which are, stability, responsibility, excellence, innovation and working together.

The global trust and corporate service market has increased at a significant CAGR during the years 2015-2018 and projections are made that the market would rise in the next four years i.e. 2019-2023 tremendously. The trust and corporate service market is expected to increase due many growth drivers such as increase in sovereign investors, escalating global GDP per-capita, growing global HNWI wealth, high client retention rate, etc. Yet the market faces some challenges such as failure of client relationship, shuddering global consumer confidence, political and economic ambiguities, etc.
