Executive Summary

Recliner sofa is the new trend in the US furniture market. Recliner sofa is an armchair which reclines when the occupant lowers the chair's back and raises its front. The recliner sofa reclines all the way to bed mode.

Recliner sofas use various types of fabrics, but are mainly categorized as Natural fibers, synthetic and leather. Natural fibers include plant-based cotton, silk, wool and linen. Synthetics for sofa fabrics are polyester or polypropylene, nylon, acrylic and olefin.

There are many types of sofas like Sectional Sofa, Chesterfield, Lawson Style, Bridge Water, Divan, Settee Sofa, Recliner Sofa, etc. Even Recliner sofas have many types like Two-Position, Rocker, Riser, Wall-Hugger Recliners, Lift Chairs, Push Back, Rocker Recliners and Massage Recliner.

Recliner Sofas are of two reclining styles, power recliner sofas which are operated with the use of electricity whereas other is manual recliner sofas, reclined manually with the help of levers.

The US recliner sofa market is expected to increase with steady growth rates during the forecasted period 2017-2021. The US recliner sofa market is supported by various growth drivers, such as, available in variety of fabrics, innovative upgrades in functions, increasing demand from millennial, etc. Still, the market faces certain hindrances and challenges, such as, constant demand for additional functions, negative impact from presidential elections, criticality of inventory management, etc. Few trends in the US recliner sofa market are evolving product distribution channel, demand for customization, change in disposable income, etc.
