K2VIEW

NetApp Inc.

Oracle

SAP SE

Software AG

Splunk Inc.

Talend

VMware, Inc.

Teradata

The market is further segmented into:

Component

Type

Application

Deployment Model

Organization Size

Vertical

The Asia-Pacific data fabric market is segmented on the basis of component, type, application, deployment model, organization size and vertical. The report provides data for 2016 to 2025, 2017 being the current year while 2018 to 2025 is the forecast period for the report.

The Asia-Pacific data fabric market is segmented based on component into two notable segments; software and services. Services segment is sub segmented into managed services and professional services. Professional services are further sub segmented into consulting services, support and maintenance and education and training. In 2017, services market is likely to dominate market with 76.6% shares and is estimated to reach USD 612.15million by 2025. It is growing at the highest CAGR of 27.9% in the forecast period.

The Asia-Pacific data fabric market is segmented based on type into two notable segments; disk-based data fabric and in-memory based data fabric. In 2017, disk-based data fabric market will dominate with 59.7% shares and will consume around 448.42million by 2025 whereas; in-memory based data fabric is growing at the highest CAGR of 26.9% in the assessment period.

The Asia-Pacific data fabric market is segmented based on application into six notable segments; fraud detection and security management, governance, risk, and compliance management, customer experience management, sales and marketing management, business process management and others. In 2018, the fraud detection and security management market is estimated to dominate market with 44.3% shares and will collect around 366.39million by 2025, rising with the highest CAGR of 28.5%.
