Market Segmentation

By Components (solution, services), Deployment Model (Cloud, On Premises, Hybrid), Organization Size (Large Enterprises, Small And Medium Sized Enterprises (SMES)), Vertical (Capital Markets, Banking Financial Services and Insurance (BFSI)), Geography (North America, Europe, Asia-Pacific, Europe, South America, Middle East and Africa).

Major growing sectors under the Market Segmentation are as follows:

In Components, Increase in the implementation provides more effective and advanced analytics solution. Thus, it provides consistency as well as delivering quality alerts through different trading activities.

In Deployment Model, Cloud segment is dominating the market due to its growing acceptance by different capital market institutions. It enables them to adopt positive and a fluid approach towards managing risk and for heightened security.

In Organization size, Large enterprises segment accounted for the maximum share in the market. The continuous adoption of trade surveillance solutions

across different companies has minimized fraudulent cases, data manipulation and illegal trading practices.

In vertical, Capital market is dominating the market due to the presence of different regulatory bodies such as MiFID II, Dodd-Frank and others for proactively monitoring and investigating the trade activities.
