## Abstracts

Europe Data Center Interconnect Market is expected to reach USD 2,435.96 Million by 2025 from USD 1,024.00 Million in 2017, at a CAGR of 11.5% in the forecast period 2018 to 2025.

The major factors driving the growth of this market are the data centers concentrating on the reduction of high power consumption, WAN consolidation and bandwidth requirements, enhanced enterprise demand from vertical and rapid conversion into cloud-based services. The data center interconnect market in the Europe region is leading in U.K.

The key market players for Europe data center interconnect Market are listed below:

Cisco Systems, Inc.

Equinix, Inc.

Digital Realty Trust

The market is further segmented into:

Type

Application

## End Use

### Geography

The Europe data center interconnect market is segmented on the basis of type, application, end user, industry and geography. The report provides data for 2016 to 2025, 2017 being the current year while 2018 to 2025 is the forecast period for the report.

The Europe data center interconnect market is segmented based on type into three notable segments; product, software and services. The product type is sub segmented into packet optical transport, packet optical networking, converged packet optical and packet switching networking. The service type is sub segmented into professional services and managed services. Professional services is further sub segmented into training, consulting and integration and maintenance. The Data center interconnect market is dominated by services with 58.1% market share in 2017 and is expected to grow at the highest CAGR of 12.1% in the forecast period.

The Europe data center interconnect market is segmented based on application into four notable segments system; workload and data storage mobility, shared data and resources, server high availability cluster and real time disaster and business continuity.

The Europe data center interconnect market is segmented based on end- user into four notable segments; communication server provider, CNPs/ICPs, government and enterprises. Enterprises are further sub segmented into banking and finance, utility and power, healthcare, retail and e- commerce, media and entertainment and others.

Based on geography, the Europe data center interconnect market is segmented into geographical regions, such as,

Germany

France

U.K.

Italy

Spain

Belgium

Netherlands

Russia

Turkey

Switzerland

Rest of Europe

#### Covered in this report

The report covers the present scenario and the growth prospects of the Europe data center interconnect market for 2018-2025. To calculate the market size, the report considers the revenue generated from the sales of the web conferencing and unified communication and collaboration (UC&C) and video conferencing, secondary resources and doing in-depth company share analysis of major 10 players in the market.
