Abstracts

The Europe Thermally conductive plastic market is expected to reach USD 449.23 million by 2025, from USD 146.80 million in 2017 growing at a CAGR of 15.0% in the forecast period 2018 to 2025.

The major factors driving the growth of this market are increased demand of thermally conductive plastics due to the products longevity, reduced manufacturing cost, reduce component weights. The thermally conductive plastic market in the Europe region is leading in Germany.

The key market players for Europe thermally conductive plastic Market are listed below:

Covestro AG

Koninklijke DSM N.V.

BASF SE

SABIC

The market is further segmented into:

Resin type

Industry

Geography

The Europe thermally conductive plastic market is segmented on the basis of resin type, industry and geography. The report provides data for 2016 to 2025, 2017 being the current year while 2018 to 2025 is the forecast period for the report.

The Europe thermally conductive plastics market is segmented based on resin type into five notable segments; polyamide, polycarbonate, polyphelene sulphide, polybutylene terephalate, polyetherimide and others. The thermally conductive plastics market is dominated by Polyamide with 49.3% market share in 2018, growing at a CAGR of 14.9% in the forecast period.

The Europe thermally conductive plastics market is segmented based on industry into six notable segments; Electrical & Electronics, Automotive, Industrial, Healthcare, Aerospace and Others. In 2018, the Electrical & Electronics conductive plastics segment is expected to dominate the market with 45.4% market share.

Based on geography, the Europe thermally conductive plastic Materials market is segmented into geographical regions, such as,

Germany

United Kingdom

France

Spain

Italy

Russia

Turkey

Belgium

Nether lands

Switzerland

Rest of Europe

Covered in this report

The report covers the present scenario and the growth prospects of the Europe thermally conductive plastic market for 2018-2025. To calculate the market size, the report considers the revenue generated from the sales of the web conferencing and unified communication and collaboration (UC&C) and video conferencing, secondary resources and doing in-depth company share analysis of major 10 players in the market.
