Abstracts

Europe transradial access market is expected to USD 546.8 Million by 2025 from USD 288.6 Million in 2017, at a CAGR of 8.4% in the forecast period 2018 to 2025. The new market report contains data for historic years 2016, the base year of calculation is 2017 and the forecast period is 2018 to 2025.

Based on product the market is segmented into six notable segments; sheaths and sheath introducers, microcatheters, guidewires, guiding catheters, intermediate catheters and accessories. In 2018, sheaths and sheath introducers market is likely to dominate market and is estimated to with the highest CAGR in the forecast period.

On the basis of application the market is segmented into three notable segments; neurovascular, cardiology, and peripheral vascular. In 2018, cardiology market will dominate the market with the highest CAGR in the assessment period.

On the basis of usage the market is segmented into four notable segments; drug administration, fluid and nutrition administration, diagnostics and testing and blood transfusion. In 2018, the drug administration market is estimated to dominate the market and is estimated to with the highest CAGR in the forecast period.

On the basis of end user, the market is segmented into four notable segments; hospital, clinics, ambulatory care centers and others. In 2018, hospitals market is expected to dominate the market and is estimated to grow with the highest CAGR.

Based on geography, the market is segmented into 11 geographical countries:

Germany

France

U.K.

Spain

Italy

Switzerland

Netherlands

Russia

Turkey

Belgium

Rest of Europe Europe transradial access market competition by top players include -

Cardinal Health dominated the core materials market accounting largest market share followed by Angiodynamics Inc., Terumo Corporation and BD along with other players such as

Stryker

Teleflex Incorporated

Smiths Group plc

MEDTRONIC

Boston Scientific Corporation

Edwards Lifesciences Corporation
