Globally, there is an exponential rise in the cases of Obstructive Sleep Apnea (OSA) among the world population and is one of the most important factors contributing to the growth of this market. It is estimated that around 100 million people suffer from OSA across the world. Factors which cause development of sleep apnea include obesity, life style habits such as smoking, alcohol, irregular sleep patterns, and substance abuse. The risk of sleep apnea is higher in the age group above 50-60 years. It is found that more than 18 million adults across different age groups have sleep apnea and approx two to three percent cases are related to childhood OSA. The numbers are much higher in children with habitual snoring. The most common conditions associated with this disorder include atrial fibrillation, coronary artery disease, respiratory diseases, stroke, congestive heart failure, obesity, and hypertension and type II diabetes.

The global sleep apnea devices market has been segmented On the basis of product type into Diagnostic Devices, and Therapeutic Devices. Diagnostic Devices is further segmented into Polysomnographs, Pulse Oximeters, Polygraphs, and Actygraph.

Based on end-user the market is segmented into Hospitals, Home Healthcare, Sleep Clinics, and Community Healthcare.

Based on geography the market is segmented into 5 geographical regions, North America, Europe, Asia-Pacific, South America and Middle East and Africa. The geographical regions are further segmented into major countries such as U.S. Canada,
