Abstracts

North America cosmetic pigments and dyes market is expected to register a healthy CAGR in the forecast period 2018 to 2025. The new market report contains data for historic year 2016, the base year of calculation is 2017 and the forecast period is 2018 to 2025.

Rising demand of cosmetic pigments in cosmetic & personal care industry and the increasing geriatric

Population and its rising interest towards maintaining a youthful look. On the other hand, high metal

Content in pigments and stringent regulations associated with the manufacture is hampering the growth of market.

The key market players for North America cosmetic pigments and dyes market are listed below:

BASF SE

Clariant

Chem India Pigments

Dayglo Color

Eckart

Elemental Srl

Geotech

Kobo Products

Koel Colours

Kolortek

LANXESS

The market is further segmented into:

Elemental composition

Type

Application

Technology

The North America cosmetic pigments and dyes market is segmented based on elemental composition into four notable segments; organic pigments, inorganic pigments, oil soluble colours and water soluble colours. Organic pigments are sub segmented into lakes, toners and true pigments. Inorganic pigments are sub segmented into white pigments, iron oxide, chromium dioxide, mica, ultramarines and others. White pigments are sub segmented into titanium dioxide and zinc oxide.

The North America cosmetic pigments and dyes market is segmented based on type into two notable segments; dyes and pigments. Dyes are sub segmented into reactive dyes, disperse dyes, vat dyes, direct dyes, others. Pigments are segmented into four segments special effect pigments, surface treated pigments, nano pigments and natural colorants. Special effect pigments are sub segmented on the basis of pearlescent pigments and metallic pigments. Pearlescent pigments are sub segmented on the bases of organic pearls, inorganic pearls, silver pearls, colored interference pearls. Surface treated pigments are sub segmented on the basis of methicone & dimethicone treated pigments, alkyl silane treated pigments, organo titanate treated pigments and cross polymer treated pigments. Nano pigments are sub segmented on the basis of titanium dioxide, zinc oxide and carbon black. Natural colorants are sub segmented into alkanet root, henna and phycobiliproteins.

The North America cosmetic pigments and dyes market is segmented based on application into eight notable segments; facial makeup, eye makeup, lip products, nail products, hair color products, special effect & special purpose products and others.
