Abstracts

U.S. Biometric as a service in healthcare market is expected to reach a CAGR of 23.8% in the forecast period of 2018 to 2025. The new market report contains data for historic year 2016, the base year of calculation is 2017 and the forecast period is 2018 to 2025.

Market Segmentation

Modality Type (Unimodal, Multimodal), Access Control and Authentication (Single Factor Authentication, Multi Factor Authentication), Deployment Model (Hybrid, Private, Public), Access Channel (Online, IOS, Android, Tablet, In Person), Application (Medical Record Security and Data Center Security, Patient Identification and Tracking, Care Provider Authentication, Counter Insurance Fraud, Pharmacy Dispensing, Home/ Remote Patient Access, Narcotic Security)

Major growing sectors under the market segmentation are as follows:

In modality type, fingerprint scanning is dominating the market due to its low cost factor as well as presence of huge legacy fingerprint databases.

In access control and authentication, multi factor authentication segment is dominating the market due to its certain factor it covers full authentication and can be used in multiple purposes as well as extensive approval of multi-factor authentication.

In deployment model, Hybrid segment is dominating the market due to its capacity to deploy all forms of biometric technology which offsets varying user,

environmental as well as demographic conditions.

In access channel, online segment is dominating the market as it can be easily accessible from any part of the world and is a cheaper source of communication.

In application, medical record security and data center security segment is dominating the market due to its features like rising need of protecting the data from theft and hackers, confidentiality as well as strict rules and regulations of HIPAA.
