Abstracts

U.S. Database Automation Market is expected to reach a CAGR of 28.0% in the forecast period of 2018 to 2025. The new market report contains data for historic year 2016, the base year of calculation is 2017 and the forecast period is 2018 to 2025.

Market Segmentation

Component (Solution, Services), Deployment Type (Cloud, On Premise), Organization Size (Large Enterprises, Small & Medium Sized Enterprises), Application (Security & Compliance, Backup, Provisioning), Vertical (Banking, Financial Services & Insurance (BFSI), Government & Defense, Healthcare, Manufacturing, IT & Telecom, Research & Academia, Retail & e- Commerce, Media & Entertainment, Others)

Major growing sectors under the market segmentation are as follows:

In solution, application release automation is dominating the market because it achieves higher quality software releases with the help of higher release throughput rate, reduced uncertainty along with enhanced flexibility.

In deployment, cloud segment is dominating the market due to its self-securing, self-repairing nature which helps in eradicate human errors as well as manual database management.

In organization size, large enterprises segment is dominating the market due to the data maximization

In application, online segment is dominating the market due to increase in data loss, privacy as well as security issues.

In vertical, BFSI segment is dominating the market due to its feature like rising need of data protection and growing focus towards business decision making as well as strategies.
