Abstracts

The Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031) was valued at in and is anticipated to reach by , at a CAGR of xx% from 2026 to 2032.

The report delivers in-depth insights into key market dynamics, including regional growth trends, market segmentation, CAGR projections, and the revenue performance of leading industry players. It also highlights major growth drivers shaping the market landscape. Designed to provide a clear and comprehensive perspective, the report offers a detailed view of the current market size in terms of both value and volume, along with emerging opportunities and the overall development outlook of the Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031).

This report delivers a comprehensive overview of the Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031), with both quantitative and qualitative analyses, to help readers develop growth strategies, assess the competitive landscape, evaluate their position in the current market, and make informed business decisions regarding Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031). The Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031) size, estimates, and forecasts are provided in terms of output/shipments (K MT) and revenue (US\$ millions), with 2025 as the base year and historical and forecast data for –.

Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry,

Forecast and outlook (2024-2031) Scope:

Major Highlights

This report delivers a comprehensive overview of the Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031), with both quantitative and qualitative analyses, to help readers develop growth strategies, assess the competitive landscape, evaluate their position in the current market, and make informed business decisions regarding Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031). The Bipolar Disorder (Manic Depression) – Pipeline Insight – 2018 Size, Share, Industry, Forecast and outlook (2024-2031) size, estimates, and forecasts are provided in terms of output/shipments (K Sqm) and revenue (US\$ millions), with 2025 as the base year and historical and forecast data for –.

This report will assist keyword manufacturers, new entrants, and companies across the industry value chain with information on revenues, production, and average prices for the overall market and its sub-segments, by company, by Type, by Application, and by region.

Regional Analysis:

North America (U.S., Canada, Mexico)

Europe (U.K., Italy, Germany, Russia, France, Spain, The Netherlands and Rest of Europe)

Asia-Pacific (India, Japan, China, South Korea, Australia, Indonesia Rest of Asia Pacific)

South America (Colombia, Brazil, Argentina, Rest of South America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of Middle East & Africa)

Partner Identification

Increase Your Customer Base by 3X using our Partner Identification tool

Uncover strategic collaboration opportunities with DataM vetted partners aligned to your ecosystem.

Identify high potential M&A targets based on synergies, market positioning and growth trajectory.

Prioritize partners by strategic fit rather than general capability.

Why Choose DataM?

Data-Driven Insights: Dive into detailed analyses with granular insights such as pricing, market shares and value chain evaluations, enriched by interviews with industry leaders and disruptors.

Post-Purchase Support and Expert Analyst Consultations: As a valued client, gain direct access to our expert analysts for personalized advice and strategic guidance, tailored to your specific needs and challenges.

White Papers and Case Studies: Benefit quarterly from our in-depth studies related to your purchased titles, tailored to refine your operational and marketing strategies for maximum impact.

Annual Updates on Purchased Reports: As an existing customer, enjoy the privilege of annual updates to your reports, ensuring you stay abreast of the latest market insights and technological advancements. Terms and conditions apply.

Specialized Focus on Emerging Markets: DataM differentiates itself by delivering in-depth, specialized insights specifically for emerging markets, rather than offering generalized geographic overviews. This approach equips our clients with a nuanced understanding and actionable intelligence that are essential for navigating and succeeding in high-growth regions.

Value of DataM Reports: Our reports offer specialized insights tailored to the latest trends and specific business inquiries. This personalized approach provides a deeper, strategic perspective, ensuring you receive the precise information necessary to make informed decisions. These insights complement

and go beyond what is typically available in generic databases.

BIPOLAR DISORDER PIPELINE ANALYSIS

- Bipolar disorder, also known as manic-depression, is a mental illness that primarily affects mood. Symptoms of bipolar disorder are extreme irritability or agitation, a period of feeling empty, loss of interest in usual activities, sleep problems, etc.
- These disorders have different types of episodes such as manic episodes, hypomanic episodes, depressive episodes, and mixed episodes. Causes of bipolar disorders include childhood trauma, stressful life events, self-esteem problems, and genetic inheritance.
- People with bipolar disorder are also at higher risk of other diseases like thyroid disease, heart disease, diabetes, obesity, migraine headaches, and other physical illnesses.
- There is a range of treatments to control the disorder. As bipolar disorder is a lifelong and recurrent illness, people with the disease need prolonged treatment to maintain or control of bipolar symptoms. A potential maintenance treatment plan includes medication and psychotherapy.
- Medications such as valproic acid, lithium, and anticonvulsants are used to stabilize moods. Antidepressant medicines. Alternative treatments include Electroconvulsive Therapy (ECT) and herbal supplements.
- To pipeline of bipolar disorders includes a varied range of products, some of them are like Cyclurad – a combination of cycloserine/lurasidone of NeuroRx is in the Phase 3 stage of development. Sep-22 of Sumitomo Dannippon is in phase 2 whereas SEP-378608 of the same company is being developed in Phase 1 clinical trial. Prodrugs of the already existing marketed prodrugs have gained value, and products like KP303 (prodrug of quetiapine XR) is in the preclinical stage of development.
- Vraylar, an oral, once-daily atypical antipsychotic, was discovered and co-developed by Gedeon Richter and is licensed by Allergan in the US and Canada. For more than a decade both companies have conducted over 20 clinical trials enrolling thousands of patients worldwide to evaluate the efficacy and safety of cariprazine. Collaborated developments help to overcome the challenges of high costs.
- The growing need to curb the financial burden of bipolar disorder drives the growth prospects for the global bipolar disorder therapeutics market.
- It provides a comprehensive understanding of the emerging Phase III therapies for Bipolar Disorder (Manic Depression), which can turn out to be future, encouraging competitors for the marketed products. The complexity of bipolar disorder is yet to be answered.
- Demographics is expected to drive the growth of total prevalence in the forecasted period for bipolar I disorder and bipolar II disorder. Some of the significant factors

responsible for the market's growth are the high incidence of bipolar disorder symptoms in the US, the rising awareness about these disorders, the growing number of pipeline products, and the increasing prevalence of pediatric bipolar disorders.
